Mr. and Mrs. Earl McClaugherty stopped over for a brief visit with Mrs. Tom McClaugherty one day last week, while enroute to their home in California. They had been visiting relatives in San Antonio.

IS YOUR INSURANCE MAN, ONE WHO LIVES AMONG YOU?

OR ONE JUST PASSING THRU?

For Every Form of Insurance

O. H. MILLER, Hondo, Texas,

Since 1907.

Fritz Weber was down from the Utopia country Saturday, visiting relatives and friends here. Mr. Weber was exhibiting some fine corn as we even saw grow in Texas and said the field from which it was taken would produce all of fifty bushels to the acre—but the field is not his. He went too far from home and made a bad selection of seed corn and will have to be content with producing about thirty bushels to the acre. We were a mowhat curious to know from what neighbor's field he "hooked" the samples, but knew it wasn't from C. W. Gilliam's—C. W. "don't know nothin'" except how to raise sheep and vote the Republican ticket, and we knew he didn't grow any such corn. So to keep him from having the chance of claiming to be the champion corn grower of Utopia, we made Mr. Weber admit that that honor belongs to his son, Reinhard Weber, and he has the corn to prove it. P. S. If the "processing" taxes or any other sort of taxes knocks the bottom out of our flour barrel, we are going up and "go to mill" with our friends among the Utopia corn-growers!

We are informed this week that we were misinformed last week about Mrs. Alice Bertier seeking a rest cure in San Antonio, but, on the contrary, had gone to the city to visit a sister, Mrs. Martin Zimmermann. We try to verify current reports before making publication and thought we had done so in this case, and for that reason are doubly glad to give this version of the true facts and regret any embarrassment that may have been caused anyone.

Mr. and Mrs. L. E. Heath had as their guests Sunday forenoon Mrs. Lotta C. Gardner, of New York City and Mrs. Harris of Fort Worth. Mrs. Gardner, who is spending the summer in her former home at Fort Worth, is the mother of Mrs. Wallace Heath, Mr. and Mrs. Heath's daughter-in-law. Mr. and Mrs. Heath also reside in New York City where Mr. Heath is an architect.

The party composed of Mrs. W. H. Smith and son, Jimmy, and Miss Helen Ann Miller from here and Mrs. John Becker of Belin, New Mexico, arrived home Monday morning from a two weeks' motor trip to Chicago where they visited the Century of Progress Exposition.

Mrs. A. C. Trallman, F. H. Schweers, H. E. Haass, O. B. Taylor, H. V. Haass, and Fletcher Davis, and Blanton Taylor spent Tuesday at the Jagge Ranch as the guests of Mrs. P. C. Jagge. While there they enjoyed a barbecue dinner and supper.

Mrs. Frances Keller and daughter Miss N. R. Karrer, spent the week-end in San Antonio. They were accompanied home by Mrs. Keller's little granddaughter, daughter of Mr. and Mrs. Phillip Karrer, who will spend several days here.

Quite a large group of Hondo people have been camping at Concha and Castrovilla, during the week, and over the week-ends, and many just spending the day at either place, enjoying the swimming and picnicing.

Ed Delbrail, nephew of Mrs. Geo. E. Schmidt, has been in Hondo for the past week, visiting and looking after business interests.

## ALMOST ONE HUNDRED PERCENT.

Of the 186 cotton planters in Medina County, every one was seen by a government agent and given an opportunity to sign up for the cotton acreage reduction campaign. Of these 186 growers, 183 or all but three signed up to destroy from one-fourth to one-half of their growing cotton, making the plan insofar as Medina County is concerned almost 100 per cent complete.

Contracts signed up show a total acreage of 9,562 1-4 listed by the farmers. Of this acreage, it is proposed to destroy 4210 acres or almost 50 per cent. About half of those signing contracted for a full cash settlement while about the same number accepted a lower cash payment and an option on certain amounts of government owned cotton. The face of the contracts call for a total payment of cash rental of \$37,972.00 when the contracts are given final approval at Washington.

Reports in the papers indicate that the result in Medina County is a fair index to the result over the state and that Texas has set the pace for the entire cotton belt.

The facility with which the vast movement has been put over is complementary to the entire Extension force, both locally and over the state, which had direction of the campaign.

In this connection, it is not out of place to remark that no matter how blameworthy or how wanton this tremendous waste of wealth may appear to anyone, the farmers are blameless for whatever evil may result. If they receive a fair rental for their land they have accomplished the purpose for which they planted it and are through. What happens further on will be the responsibility of those who put them in the position of having to destroy wealth already created or refuse to accept the only help proffered them by their government—and years and mine-of which, all know, they stand sorely in need. To have refused to sign up would have been to furnish an alibi for the failure of the present scheme of farm relief. The farmers have wisely laid down no such gap.

## TRADES DAY.

Vernon King of Hondo was winner of the grand prize at Hondo's monthly Trades Day drawing, Wednesday afternoon, July 12. Other lucky winners were S. E. Rieber, E. W. Muenink of Hondo, Miss Ethel Bendele of Dunlay, Hugo Saathoff and Mrs. John Martin of Hondo. The prizes were cash premiums.

The usual good-sized crowd was gathered on College Square and C. M. Merritt was pinch-hitting for W. N. Saathoff as master of ceremonies. Many tickets were in evidence, showing the wide trade territory of Hondo merchants, and the immediate response to the call by ticket-holders displayed an unusual interest in the drawing in spite of the excessive heat.

The local merchants will again extend their invitation to attend Hondo's Trades Day next month, August 9th. Be sure to ask for Trades Day tickets.

## FOR SALE.

One pair young work mules, one mare with yearling mule colt, one mare, one Jersey cow, fresh in milk. R. C. FLESS.

Subscribe for this paper.

## COUNTY COURT PROCEEDINGS.

The County Court for Medina County met all last week at the courthouse here. The following are the court's proceedings:

### Criminal Docket

The State of Texas vs. Manuel Lopez, theft under the value of \$50. Continued. No arrest.

The State of Texas vs. R. H. Powers, theft over the value of \$50.00. Passed.

The State of Texas vs. Dan Rabb, theft under the value of \$50.00 and over the value of \$50.00. Passed, defendant escaped.

The State of Texas vs. Emelio Pena, gaming. Passed. State announced ready for trial, defendant failed to appear; judgment against defendant's bondsmen. All papers remanded back to Justice Court, Precinct 5.

### Civil Docket.

Adams Co. vs. E. F. Lee, suit on promissory note and foreclosure of Chattel Mortgage Lien. Continued.

L. C. Gray, individually and as firm of Wells & Gray, vs. Epifanio Caneja, et al., suit on note. Continued.

C. C. Gilliam vs. G. R. Yantis, John T. Lomax, Ray S. Wait and living, Nedler, suit for debt. On appeal.

C. L. Wernette vs. Claude Tschirhart, suit for damages. Passed.

W. W. Thompson vs. R. H. Power, suit to recover personal property of the value of \$140.00. Appealed from J. P. Court Pr. 5. Cause dismissed for failure to comply with motion for costs. Costs on plaintiff.

J. H. Hester vs. C. W. Allen, suit on note and foreclosure of Chattel Mortgage Lien. Passed. Plaintiff takes non-suit. Costs on plaintiff.

Southern Cotton Oil Co. vs. Medina Mills, suit for debt. Came up for trial, July 13th; service completed. Judgment rendered for plaintiff in amount sued for and all costs in court.

J. C. Thompson vs. Texas Turkey Growers Assn., affidavit for Distress Warrant. Passed. Plaintiff announced ready for trial. Proof introduced and judgment in amount sued for and foreclosure of the property involved. Order of sale to issue. Defendant to pay all costs.

## LADIES BRIDGE CLUB.

Mrs. F. H. Schweers entertained with three tables of bridge last Thursday afternoon, in honor of the Ladies' Bridge Club. A purple and lavender color scheme was carried out, the chosen flowers being lachetier buttons and zinnias.

High score prizes were awarded Mrs. J. M. Finger and Miss Josephine Brucks. Mrs. O. B. Taylor cut high for the consolation prize.

Delicious refreshments of peach ice cream and angel food cake were served.

The guests were Mesdames Earl Starnes, Alice Reinhart, W. O. Rothe, L. E. Heath, J. M. Finger, Fletcher Davis, Horace Bradley, L. J. Brucks, O. B. Taylor, and Misses Josephine and Lillian Brucks, and the hostess, Mrs. Schweers.

## TO MY CUSTOMERS.

I have moved from my former quarters to the second building east of C. J. Bless' store on Front Street, where you are invited to call. Phone 188.

PAUL R. RICHTER,  
Grain and Feed Dealer.

We do job printing.

## ST. PAUL'S LUTHERAN CHURCH.

Next week beginning July 19 the Lutheran Church workers of Texas will gather at Seguin, Texas, for the annual chautauqua. New inspiration and additional knowledge and interest will be offered by the well-planned sessions. Three distinct groups will meet, namely the Women's Missionary Federation, the State Lutheran League (for young people), and the Sunday School Teachers.

The Women's Missionary Federation will be addressed by Prof. E. J. Kraulick of Seguin, Mrs. B. Dwyer of Myersville, Mrs. L. Ulrich of San Antonio and Mr. C. R. Sheatsley, representing the mission work in India. Speakers for the State Lutheran League will be Rev. W. C. Leibfarth of Hondo, Miss Elsie Franke of San Antonio, and Rev. Geo. Schardt of Port Arthur. The Sunday School Teachers will hear lectures by Rev. F. A. Neumeister of San Antonio, Rev. Allen E. Nelson of Clifton, Rev. W. A. Flachmeier of Columbus and Rev. O. Schmidt of Beeville.

Plenty of time is provided for business sessions and recreation of all groups.

On Thursday evening the Women's Missionary Federation will present a most interesting and instructive pageant. Recreation for three evenings will be provided by the Seguin, Fredericksburg (Zion's) and Austin Lutheran Leagues.

At the Sunday services, July 23rd, Rev. H. C. Poehlmann of New Ulm will speak at the German service at 8:15 A. M. and Rev. G. Schardt of Port Arthur at the English service at 10:30 A. M. The State Lutheran League will present a program of general interest on Sunday afternoon at 2:30 P. M.

Regular services will be held on Sunday, July 16, at 10:30 A. M. in the English language. Sunday school and Bible Classes meet at 9:15.

On Sunday, July 23, German service at 10:30 A. M.

Pastor.

## ZANE GREY WESTERN AT THE COLONIAL.

George O'Brien, hero of many thrilling Westerns, takes the lead in "Smoke Lightning", an adaptation from a Zane Grey story, at the Colonial Theatre tonight and Saturday. There is the usual human interest, suspense, comedy, and horseback riding. The human interest is brought about by O'Brien's attachment to a young orphan girl, owner of a ranch, and laughs are brought about by the way in which he and his party try to dress the child in skirts; she had been accustomed to wearing trousers at all times. The closing situation is a thrilling one in which the hero rescues the child from abduction.

Included in the cast are Neil O'Day, Betty King Ross, Frank Atkinson, Clarence Wilson, Morgan Wallace and others.

## CLUB ENTERTAINED.

The Deuce of Clubs was entertained with its weekly party Monday evening, with Miss Anne Davis as hostess. There were two tables of members and two of guests. After six games of bridge, the club prize was awarded Miss Thelma Lynch and the guest prize to Mrs. Roy Pfeil. Refreshments of iced fruit punch and cake were served at the conclusion of the playing. Those present were Mesdames O. B. Taylor, L. J. Brucks, Felix Richter, Roy Pfeil and Fletcher Davis, and Misses Irene Schweers, Irene Haass, Lillian Brucks, Elita Leinweber, Mary Ruth Cambron, Elizabeth Holloway, Octavia Davis Josephine Brucks, Thelma Lynch, Nora Karrer, Anna Leah Brucks, Lucy and Anne Davis.

## FARMER TELEPHONE OWNERS.

Why not prepare now for better telephone service during the fall and winter by having your instrument and house wiring looked over by an experienced telephone man. Many minor faults can be corrected that will improve your service.

Your lines, instruments or house wiring can be repaired at a very nominal cost. All work guaranteed.

Give me a ring and let's talk it over.

This ad applies to farmers owning their own telephones and lines.

W. C. ALLEN,  
Hondo, Texas.  
Phone 50.

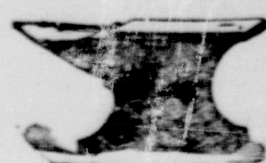

## MEDINA PROJECT LAND TO BE SOLD TO RAISE TAXES.

Natalia, July 7.—A long awaited announcement of the sale of land on the Medina project for the purpose of paying back school taxes was made by school authorities here. One thousand five hundred acres are to be sold at approximately \$40 an acre to pay state, county and school taxes.

According to managers of the land company here, the price is to be raised after the sale, as the measure is purely for relief purposes.—San Antonio Light.

## BIDS WANTED.

Notice is hereby given that bids will be received at the County Judge's Office, in Hondo, Texas, up to July 21st, 1933, for the purchase by Medina County of one 35 h. p. Caterpillar tractor. The buyer to make bid on old county tractor in part payment. Medina County reserves the right to reject any or all bids. St. R. J. NOONAN,  
County Judge.

## IT'S TIME ENOUGH TOMORROW

—To give up in despair—for we need all our courage today!

—To pay off that old grudge—for we need to be just today!

—To give way to a vindictive impulse—for we need to be forbearing today!

—To worry about the mistakes of yesterday—for we need to be up and doing today!

—To put over that shady deal—for we need to be honest today!

—To doubt the fidelity of our friend—for we need his encouragement today!

To do what should not be done today—for tomorrow never comes!

It is generally accepted by the medical fraternity now, we believe, that the diphtheria germ must find a diseased condition of the throat suitable to its rapid development before there is much danger of its attacking its victim. A good many years ago this writer called the attention of a physician then practicing medicine here to the coincidence of a sporadic outbreak of diphtheria each season when the ragweeds were in flower. Though nothing at that time seems to have been proven, the physician agreed that there might be some relation of cause and effect in the coincidence. Now the Federal Department of Agriculture is out with a statement that 65 per cent of the cases of hay fever occur in the autumn and in some localities 90 per cent of those are caused by ragweeds. The goldenrod, long blamed for being the chief cause, has been proven to be only a minor evil. It may be noted that as the ragweed nuisance has diminished in Hondo diphtheria cases have become less frequent. The moral would seem to be to practice prevention of this dreaded disease by removing the cause for its rapid spread in irritated nostrils and throats by warring on their cause, the ragweeds. And do it now—before the pollen begins to fly.

According to the Bureau of the Census there were 40,192 marriages in Texas in 1932 as compared to 40,512 in 1931. During the same periods there were 14,167 divorces and 137 annulments as to 15,788 divorces and 121 annulments. Of these Medina County furnished 99 marriages in 1932 and 109 in 1931. Divorces numbered 5 in 1932 and 9 in 1931. Fewer marriages and fewer divorces seem to accompany economic depression.

A copy of The El Campo News comes to hand with a three column article spread on the front page urging the publishers of Texas weekly and semi-weekly newspapers to meet at Austin Friday and Saturday, July 21st and 22nd, to organize the Texas Weekly Press Association, "to make money for its members". Editor Holcomb very pertinently sums up the policy of the organization by saying it "intends to devote its efforts to DOING some of the things that the other groups (of newspaper publishers) have been TALKING about". Evidently the organization has set itself a laudable and timely task, for the weekly press faces not only economic depression at this time but faces a process of economic evolution that threatens our very existence. This change has already broken down and all but destroyed that community consciousness which is the basis of loyalty to community welfare and the base upon which most weekly newspapers were founded and still maintain a precarious existence. In a changing economic world, business practices must change to meet changed conditions or follow the exact and the spinning wheel to the discard. If the new organization offers any hope of successfully meeting these conditions we newspapermen should hug the child to our bosoms.

## A PLACE FOR EFFECTIVE RELIEF.

E. I. McClintock, chairman of the bank committee to release frozen bank deposits, calls our attention to these pertinent facts:

"We have concurred," says Mr. McClintock, "in the recommendations recently made by a convention of bank depositors in Washington, that the government's policy in unfreezing banks' assets be liberalized. At present we are getting together exact information on the extent and effect of frozen bank deposits. Some of the data is not available in Washington and must be assembled from state authorities."

"The Treasury Department recently announced that deposits in commercial banks remaining closed or restricted since the bank holiday amounted to \$2,575,209,000, and that \$7,565,257,000 of deposits are under restriction in mutual savings banks. This does not include deposits in ap-

(Continued on Page 5).

## SCHOOL DAYS

By DWIG

# LA COSTE LEDGERETTES

The subject of our sketch, one of the original Castro Colonists, died at the home of his daughter, Mrs. Joe Keller, here following an illness of several weeks duration, at 5:00 P. M. Monday, June 26th, 1933.

Mr. Zimmermann was born on February 7th, 1843, at Feideringen, Alsace, France, and had therefore attained the age of 90 years, 4 months and 19 days at the time of his decease.

He came to this country in 1844 with his parents and settled at Casperville. He joined the Confederate Army in 1863 under Capt. Kampmann, Co. B Infantry in Fox's Battalion. He served in the Confederate Army until the end of the conflict.

On August 28th, 1865, he was happily married to Miss Elizabeth Schmidt at St. Louis Church at Casperville which union was blessed with numerous children. Mrs. Zimmermann preceded him to the grave on January 5th, 1929. Mr. and Mrs. Zimmermann celebrated their Golden Wedding anniversary in 1915 and also was present at the Golden Wedding of his oldest daughter and husband, Mr. and Mrs. Joe Keller of LaCoste on May 1st, 1933.

Mr. Zimmermann's parents died when he was 9 years of age, leaving him an orphan. He struggled along the best he could, working at one thing and another most of the time at Casperville and San Antonio, at the age of 20 he entered the Confederate Army, and after the conflict he married and lived in Medina County for many years, when he and family moved to San Antonio, where he lived until 1929 when he came to LaCoste to live with his oldest daughter.

He leaves surviving his eleven children, eight daughters, Mrs. Jos. Keller of LaCoste, Mrs. Lena Ney, Mrs. Louis Neumann, Mrs. Jacob Wolff, Mrs. J. J. Iden, Mrs. P. C. Eiserloh, Mrs. Fred Moody and Mrs. W. C. Imhoff, all of San Antonio; three sons, Mrs. Zimmermann of Los Angeles, California, Jos. Zimmermann of San Antonio, and Henry Zimmermann of Houston, 31 grandchildren, 33 great grandchildren and 14 great-great grandchildren and numerous other near and dear relatives to mourn his passing.

The funeral was held from the residence of his daughter, Mrs. P. C. Eiserloh at 2710 Buena Vista St. in San Antonio at 3:30 P. M. Wednesday, June 28th. From here the corpse was taken to the Sacred Heart Church for services after which it was taken to the St. Fernando Cemetery No. 2, where it was tenderly interred to rest with military honors. Father Jacob, pastor of Sacred Heart Church, officiated at the services, assisted by Rev. Father Schneider of St. Mary's Church at LaCoste.

Pal-bearers were Arthur Ney, Edward Eiserloh, Clifford Keller, Frank Moody, Charles Wolff and Edward Zimmermann, all grandsons and great grandsons of the deceased.

We join the many friends of the afflicted ones in extending our

sympathies in this their hour of sorrow. May he rest in peace.

Mr. and Mrs. H. H. Mangold from Neuman were visitors here Monday. Born to Mr. and Mrs. Wilfred Hutzler, a daughter, Sunday, July 2, 1933.

A. F. Bhan from Riomedina was a business visitor here last Thursday. Mr. and Mrs. George Tondre and daughter from Lytle were visiting relatives here Sunday.

Mrs. Paul Flatbush and daughter, Miss Caroline, from Macdonia were LaCoste visitors Wednesday.

Dr. W. W. Symington from Delia was a business visitor here last Saturday.

Mrs. James I. Powell of San Antonio spent a pleasant week-end with her parents here.

L. H. Jungman purchased a new V-8 Ford 1-2 ton truck from A. H. Ahr, local Ford dealer, the past week.

R. A. Wengenroth from Riomedina was a business visitor here and at Hondo Wednesday.

Daniel Keller from the Sauz spent Sunday with Mr. and Mrs. Oswald Keller and family here.

A. H. Ahr, local Ford dealer, purchased a new V-8 de Luxe Ford coupe the past week.

Mr. and Mrs. Henry Jungman from Macdonia were short visitors at our sanatorium last Saturday.

Mr. and Mrs. R. D. Bippert and son took a few days pleasure trip to Medina Lake last week.

Messrs. Herbert and Claude Tondre from Castroville were LaCoste visitors Wednesday.

Mrs. Ralph Tschirhart and daughters from Castroville were visiting relatives here Wednesday.

Mr. and Mrs. Henry Zimmermann from Houston who were visiting homefolks at Castroville the past week and Joe Lieber from Castroville were visiting relatives and friends here last Thursday.

Mr. and Mrs. Ariel A. Haby and family from Cliff were visitors here and at Macdonia Wednesday.

Mrs. James Montague and children from San Antonio spent several days the past week with homefolks here.

Misses Marie and Faustina Christilles were visiting relatives and friends in San Antonio Sunday.

Mr. and Mrs. Adolph Hils from San Antonio were visiting relatives here on the Fourth.

Mr. and Mrs. R. D. Bippert and son were the guests of Mr. and Mrs. Fritz Walther and Mrs. Mary Burell in San Antonio Monday.

Mr. and Mrs. H. H. Stautzenberger from San Antonio were the guests of Mr. and Mrs. R. D. Bippert and son here Sunday afternoon.

Mrs. D. J. Herzog and daughter, Doris, spent a couple of days the past week with her parents here, returning to their home at Kirby Sunday.

Mr. and Mrs. Alex Halty from Hondo were the guests of Mr. and Mrs. Albert Geiger and family here Sunday.

Mr. and Mrs. Otto Opperman and family from San Antonio and Mrs. John Geiger and children were the guests of Mr. and Mrs. Fritz Weiblen and family near Castroville Sunday.

Mrs. August Jungman and daughter, Miss Theresa, and Mrs. Joe Lamson and son, Patrick, were visiting

Mr. and Mrs. Oswald Keller and family one day last week.

Mr. and Mrs. R. E. Haby and children from Yellow Banks were visiting Mr. and Mrs. Louis Biediger and Mrs. W. A. Reicherzer and children here last Thursday.

Mrs. Alex A. Haby and sons, Edwin and Alex, Jr., from Riomedina were visiting Mr. and Mrs. R. D. Bippert and son here Sunday.

Mrs. Alex A. Haby returned to her home at Riomedina last Friday, after spending several weeks with her daughter, Mrs. W. A. Lutz and family at D'Hania.

A. W. Ahr is spending his vacation down on the coast, rasing with the bull mackrel. His friends hope he will catch enough to get the fishing fever out of his system.

Mr. and Mrs. John Ahr and Mrs. E. H. Riddle and sons from San Antonio were visiting Mrs. Theresa Obets and daughter, Miss Theresa, here on the Fourth.

Mr. and Mrs. Paul Jungman and daughter, Miss Hilda, were San Antonio visitors last Friday. Miss Jungman remained to resume her nurse's training at the P. & S. Hospital.

Mr. and Mrs. Otto Opperman and family from San Antonio were the week-end guests of Mr. and Mrs. John Geiger and family here. Mrs. Opperman and children remained for a few days visit.

Mr. and Mrs. D. J. Christilles and children were visiting relatives at Fredericksburg Sunday. Mrs. Christilles and children remained there for a visit with homefolks.

The infant son of Mr. and Mrs. Oswald Keller was christened in St. Mary's church Sunday, July 2nd. The names given the young man were Glenn William. Sponsors were Miss Flora Mae McKaig and Daniel Keller.

Miss Olga Geiger and George Wetta from San Antonio spent the week-end with John Geiger and family here. They were accompanied here by Miss Lena Geiger, who was visiting her sisters in the city for the past few days.

Mr. and Mrs. Adolph Mangold and family from Medina Lake, Mr. and Mrs. H. H. Trip and son from San Antonio and Mr. and Mrs. Walter Reicherzer and children from near Lytle were visiting Mr. and Mrs. Oswald Keller and children here Sunday.

Mrs. Bill Shelton and daughter and H. S. Field and Misses Louise and Emma Lessing from Macdonia and Mrs. O. P. Jungman and Mrs. Julius Ahr from here attended a social meeting of the Berdina Home Demonstration Club at the home of Mrs. M. Pepper at Culebra last Thursday. Mrs. Shelton gave a demonstration in pastry. The ladies had a pleasant evening and enjoyed the trip immensely.

Mrs. Fern S. Dunn and daughter, Mary Joyce, after a two weeks' visit with Mrs. Dunn's parents here, was joined by her husband for a visit with Mrs. Dunn's sisters and families, Mr. and Mrs. Ira Burditt at Del Rio and Mr. and Mrs. R. L. Nickell at Spoford. They returned to their home at Bay City Sunday, accompanied by their mother, Mrs. W. H. Hawkes, who will stay a few days at Bay City, and also with her son, G. T. Hawkes, and family at Flatonia before returning home.

## TAXING THE NATION INTO BANKRUPTCY.

One of the main troubles of the country at present is that legislators have been too busy in applying the term "bigger and better" to budgets.

What should be done is to make them smaller and better. Since 1929 individual and corporate incomes have been undergoing a strenuous shrinking process. The national income as a whole has fallen at an unprecedented rate. Values of all kinds have, of necessity, been scaled down. Inflated values are reaching a normal level. We have approached a virtual mortgage moratorium.

All of this is in the interest of future stability. It has at last been realized that the inflated values of a

few years ago were too good to be true. That is, it has been realized by everyone except those who make the tax rates.

The cost of government has constantly risen. States, municipalities and counties, especially have added new activities by the dozen. They have incurred millions of dollars of new indebtedness—on which interest must be paid. A striking illustration of this is found in a recent statement by the governor of a Pacific Coast commonwealth—he observed that if every activity of the state were eliminated there would still be not enough income to meet expenses.

Higher taxes now may mean national bankruptcy. Lower taxes will certainly mean quickened recovery. The time for talk has passed. There must be action.—Industrial News Review.

## A WHOPPER.

Fletcher's Farming and The Pathfinder, both delivered to your home every week for an entire year for only \$1.00. With these two sterling papers you will be kept informed about everything that goes on all over the world. Ask to see a copy

of the Pathfinder if you're not acquainted with it. It's a weekly.

## Shivering with Chills Burning with Fever

Sure Relief for Malaria!

Don't try homemade treatments or newfangled remedies! Take that good old Grove's Tasteless Chill Tonic. Soon you will be yourself again, for Grove's Tasteless Chill Tonic not only relieves the symptoms of Malaria, but destroys the infection itself.

The tasteless quinine in Grove's Tasteless Chill Tonic kills the Malarial infection in the blood while the iron it contains builds up the blood to overcome the effects of the disease and fortify against further attack. The twofold effect is absolutely necessary to the overcoming of Malaria. Besides being a dependable remedy for Malaria, Grove's Tasteless Chill Tonic is also an excellent tonic of general use. Pleasant to take and absolutely harmless. Safe to give children. Get a bottle today at any store.

Would You Invest  
3¢ to earn \$51.80  
in one month?

"In all my life I never received a surprise equal to the one this morning when your check was received," writes Mrs. W. Bittinger of Pennsylvania.

WHO can understand her reaction better than a busy mother who is always confronted with the problem of stretching a limited income? \$51.80 extra in one month means so much to any family, and all Mrs. Bittinger invested was a 3¢ stamp and her spare time.

This same opportunity is open to you. THE PARENTS' MAGAZINE is the outstanding publication in the field of child study and parent education. It deals with every phase of child care and training from crib to college. The magazine now reaches more than 300,000 homes throughout the country—but there are scores of families in your vicinity who need and want the guidance it offers.

The rewards for their new and renewal subscriptions can easily bring you that same happiness, comfort and security each month throughout the year! Mail your request for details today. This 3¢ investment can yield enormous dividends!

Dept. N, The Parents' Magazine  
114 East 32nd St., New York, N.Y.

FOR FIRST AID ... Yes!  
IN MOTOR OIL ... No!

Because Sinclair Opaline Motor Oil contains no petroleum jelly Sinclair dealers can apply it to your car according to the Sinclair Law of Lubrication. Petroleum jelly is valuable in many ointments but, unless removed, makes motor oil too thick when cold—too thin when hot. Petroleum jelly is removed from Opaline at as low as 60°F. below zero—a much lower temperature than required for just removing wax. Ask the Sinclair dealer.

## Wake Up Your Liver Bile —Without Calomel

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up."

They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resist a substitute. 25¢ at all stores. © 1931, C. M. Co.

## What Is a Reprint?

SOMETIMES your newspaper ad carries a sales punch that you feel is worth reiteration. You feel farther that it will be very effective if it is sent directly to certain prospects and customers. And perhaps you feel that it will be still more effective if it is dressed up a bit—given a distinctive border, or maybe printed in colors.

Bring your problem to us, and we will evolve a satisfactory REPRINT. Let us print as many of these as you can use and then mail them out with your correspondence or statements, or to a picked mailing list.

This method of advertising is often used by our best customers who wish to stress certain value in some particular line. It works for them it will work for you.

Your advertisement reproduced in a circular at cost of printing alone.

ASK US ABOUT IT.

ENDORSE BYRNE SYSTEM.

The Famous Byrne Simplified Shorthand is the greatest system in use today. It has over 50,000 enthusiastic writers; it holds seven consecutive world's records for speed in a given time, is the most simple, logical and rapid system in use, as is shown from the following remarks by students who first studied other systems:

"I studied Gregg Shorthand one year, then took up the Famous Byrne Simplified Shorthand and completed the manual in one week, making a grade of 72. The Byrne is so easy to learn and so rapid and thorough, I'm glad to forget the year I lost in Gregg."

"I take pleasure in telling the public that I previously studied Pitman Shorthand 8 months, used it in actual practice for four months. At the end of six weeks study of the Byrne Simplified Shorthand, I was a better writer than I had ever been with the Pitman."

"I had been a Sloan-Duployan stenographer for 15 years; I found the system inadequate. I then took Gregg shorthand under the author, Mr. Gregg, of Chicago, but found it illegible; I then took up the Byrne Simplified Shorthand which I consider the stenographic marvel of the age."

"I first studied Pitman Shorthand then took up the Byrne. I found the Byrne 55% shorter and that it could be written at a much higher rate of speed, and read like print."

"After studying Byrne Simplified Shorthand in your school two weeks, I had a more practical working knowledge of shorthand than I did after 27 months of another well known system."

"After studying six different systems of shorthand, I was unable to hold an ordinary office job, but with five weeks study of the Famous Byrne Simplified Shorthand, I went into the District Court and did reporting successfully, and was appointed official Court Stenographer."

Why study any system of shorthand other than the Byrne Simplified when the Byrne can be learned in half the time, read with greater ease and written at a higher rate of speed, which means better salary and earlier promotion? It does not cost half as much to complete a course in our school as it does in a school that cannot secure the right to teach the Byrne Simplified Shorthand. We hold the exclusive right to teach the Byrne, no other commercial school in the Southwest, not even the old Tyler School of which Mr. Byrne was President for twenty-four years, can now teach it.

Our Byrne Bookkeeping and type-writing are as far superior to the other systems taught in other schools as is the Byrne Simplified Shorthand. Fill in for free literature containing full information. There is nothing better than the best—Byrne, the holder of World's Records.

## "Tin Woodsman"

NICK CHOPPER, the "Tin Woodsman," well-known to readers of the famous Oz books, is greeting thousands of little visitors to Enchanted Island, the children's paradise at a Century of Progress. No longer is Nick bothered by rusting joints, for, like the other figures on the island, the "Tin Woodsman" is made of pressed wood. Behind him in the picture is the "Scarecrow."

Every German-language speaking family should have a German newspaper. The Freie Presse fuer Texas is the leading weekly newspaper printed in the German language published in Texas. It is sold at the low price of \$2.00 per year and by remitting for it, either new or renewal subscription, through this office you can get both the Freie Presse and Farming a whole year for the price of the Freie Presse alone. Send your \$2.00 today to Farming, Hondo, Texas.

We do job printing.

## DEVINE NEWSLETS

From The Devine News.

### TWO WHITE BOYS LOCKED UP IN JAIL HERE.

Two boys, who gave their names as McGee, Fort Sam Houston, and Somers, of Poteet, were brought here from Pearsall one day this week, where they had been doing time on a charge of petty thievery, and locked up here on a similar charge in this county. McGee said he owned a car and the other boy was with him and some stolen stuff was put in his car, and the two boys were arrested for stealing. The two mail boxes were found to belong in Medina county, it was claimed. McGee said he had leave of absence for ten days but was being now detained beyond this time and would have to do time in military detention when he was taken back. They were getting their meals they said, but found it pretty hot in the house-garage. Constable Grant sent them to Hondo jail.

### COUNTY FARMERS 100 PER CENT FOR REDUCING ACREAGE.

County Agent and Mrs. C. M. Merritt and daughters of Hondo attended and seemed greatly to enjoy the melon feast at the Club house, Friday night. Mr. Merritt said that 100 per cent of the cotton farmers are signing up for cotton reduction; and most of them for a 50 per cent reduction, which will mean a lot of money turned loose next month from this source.

Our good friend Rev. H. L. Weeber, retired German Methodist minister of Lytle, thinks the Jews in Germany are only getting what is rightly coming to them in the confiscation of property illegally gotten in the Ruhr invasion and period of inflation, following the World War. He says they were men of the American type who took advantage of conditions to rob the people of their homes and property. He thinks the ill gotten gains of several American millionaires should be Hitlerized here; and will be before they get just deservings. He recently visited in Germany.

FROM YANCEY.

News is very scarce—weather has been too warm to find many folks visiting.

Our protracted meeting began at the Methodist church Sunday. Rev. Banks, our pastor, is conducting the preaching and Rev. Bader is assisting with the song service.

We hear of a few picnics and barbecues that are scheduled for the fourth as most folks are remaining close to home. We do not expect any going to distant places.

Mr. W. F. Alexander and family returned Sunday from a two weeks' visit with relatives at Keene and Jefferson.

Mr. and Mrs. Coy Worley and children and Mrs. Elmore spent last week visiting relatives at Burnett.

Mrs. Dan McGee has two of her nieces from Abbott visiting her.

We heard by a telephone message from San Antonio that Wade Gring is still confined to his bed, although he is not in the hospital any more. Wade and five other boys were in a car accident about a month ago and doctors say his back is injured in three places, and is now in a cast. We hope he will be able to be out soon.

Mrs. Louisa Ward has sold her home property west of here to Mr. Ray Ward.

Mr. Charles Heikman moved his household goods to Moore where he is engaged in the mercantile business. Mrs. O. D. Lynn was the lucky winner of a beautiful quilt that was given away last Saturday evening.

Mr. John Buss is attending the 4th of July celebration at Laredo. He took several of his fine race horses there, and will perhaps enter them in the races.

F. R. Briscoe shipped a car of dry peas Monday; thinks he will ship four or five cars. Some farmers realize as high as \$50 the acre for their peas, green and dry.

The broomcorn harvest has started earlier straw now ready to thresh. Prices for good straw are around \$75; about double last year's price. Early planted crop will be light and late planting is suffering for rain.

Dirt will be broken in a few days we are told on the big new cheese factory building; something like 48 x 80 feet, we believe. It will probably be built with home labor and be some time in completion, we are told. The lots already purchased for the site are in the highway, just north of the city limits.

A local produce man says one of his customers has made \$15 the acre on six weeks black-eye peas on dry lands. The pea threshers have been pretty regularly running and there has been quite a little pick-up on beans and peas recently.

FROM BIRY.

Mr. and Mrs. Alvin Ryan of Baltimore, Maryland, are on an extended visit with Mrs. Ryan's parents, Mr. and Mrs. Jack Bilhartz.

Miss Lucille Bader returned to San Antonio Thursday where she has employment.

Miss Lucille Littleton spent Monday evening in Hondo.

Mrs. Lula Williams of Devine is the

guest of her father, Hugh Love.

Mr. and Mrs. Walter Stein and baby and Mr. and Mrs. Raymond Schutt of Roomedown spent Sunday with their mother, Mrs. Louis Rahn.

Mr. Earl Carl is visiting friends at Houston.

Mr. Louis Bury and Ralph Bader spent Saturday in San Antonio.

Mr. and Mrs. Frank Bury and children spent Monday evening in Hondo.

Mr. and Mrs. Oscar Bilhartz and children of Bockenridge are the guests of Mr. Bilhartz's parents here.

Mrs. Manne Senne visited her daughter at Brackettville for a week.

Mr. and Mrs. George Bader and sons and Miss Alma Keller spent Sunday in Castroville.

Mr. and Mrs. Frank Bury and children visited in Castroville Sunday.

The Bury Roberts motored to Spindletop Sunday and were defeated by the Spindletops 6 to 3. The Buries will play Sunday at Bury the 9th.

Mr. Charles Owens and Mr. William Owens and Miss Vivian Owens spent the week in San Marcos, the guest of relatives.

Mrs. Louis Rahn and son, Wesley, spent Saturday eve in Devine.

Mr. and Mrs. Louis Mangold and daughter, Irma, and Mrs. Leonard Mangold spent Sunday evening with Mr. and Mrs. Alfred Bader here and were accompanied by Miss Elvira who will visit there for some time.

Mrs. Louis Kempf and children of Nazareth visited at the A. O. Biediger home Wednesday evening.

Mr. Charles Schmidt is visiting in Hondo for several weeks.

Miss Gertrude Biediger is visiting Mrs. Louis Kempf at Nazareth.

H. F. Waggoner of the Belmont community in Gonzales county planting alfalfa for the first time this year has spread the gospel to others in that community that alfalfa can be raised in that section. Mr. Waggoner planted

## It Takes More Than Salts, Calomel, Mineral Waters, Oils, or Laxative Pills To Arouse a Sluggish Liver

They Give Only Temporary Relief From Constipation and Biliousness, Because They Have No Effect Whatever on the Liver or Its Production of Bile.

Bile is nature's laxative and your stomach and bowels require at least one quart of fresh bile every day to keep them clean, pure, free from fermentation, gas and distaste germs.

When your liver becomes sluggish the bile stagnates and stops flowing freely. The contents of your bowels become the breeding place for germs and poisons; your food does not digest—it just ferments and decays in the bowels. The blood absorbs these poisons and you suffer from constipation, gas, sick headaches, biliousness, nervousness and sour stomach.

Sargol Soft Mass Pills remove the cause of this condition in nature's way. They are not like any other medicine you have ever taken. They are so gentle, thorough and natural

in their action that there is nothing about them to remind you that you have ever taken a medicine, and most remarkable of all you gradually reduce the dose until you no longer require a laxative at all.

Unless you have tried Sargol Soft Mass Pills you can have no idea of the effects produced by this natural cleansing of your liver and bowels. It makes you feel years younger, stronger, healthier and happier. It brings back life and color to faded eyes and cheeks, restores the appetite and sound digestion—gives you a new outlook on life itself.

Insist on genuine Sargol Soft Mass Pills. Don't be misled. There are only two generally recognized substances which will actually stimulate a torpid or sluggish liver to cleanse and purify itself by increasing its production of bile. Sargol Soft Mass Pills contain both of these substances.

Only 60c for a full 10-day treatment. At your druggist, or write G. F. Willis, Inc., Atlanta, Ga.—(adv.)

W. H. WINDROW, DRUGGIST

## Free Report! "What I Expect of My Secretary"

Stenographers and others who aspire to become Private Secretaries will be keenly interested in this report which is illustrated by photographs. It has been compiled from a survey among executives of nationally-known business firms; also from the extensive experience of our own Employment Department.

It shows the characteristics which must be possessed by those who expect to win advancement; also the mannerisms and habits which retard progress.

We'll gladly send a copy free and without obligation to anyone interested. Just give us your name, age, address, previous education and present occupation—on a post card or letter.

## Hectic Days-Sleepless Nights

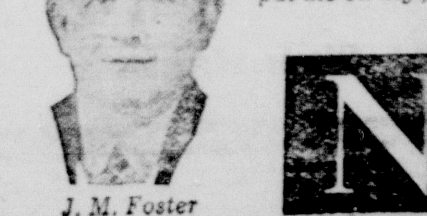

TOO MUCH work, too much mental strain, too much worry ... then "NERVES". How they torture you, tire you, keep you awake nights!

"NERVES" make you irritable, restless; give you Headache, Indigestion ... "NERVES" make you look and feel old ... weaken resistance and pave the way for serious nervous or organic trouble.

J. M. Foster, a druggist, suffered tortures from Over-wrought Nerves. He had dozens of so called "Nerve Remedies" in his store. One by one he tried them without relief until ... But let Mr. Foster tell his experience in his own words.

"I think Dr. Miles' Nerveine is the best nerve medicine made, and that a better one cannot be made. Dr. Miles' Nerveine was the only medicine on the shelf or in the prescription case that put me on my feet." J. M. Foster, Druggist, Marysville, Ohio

DR. MILES' NERVEINE LIQUID

his alfalfa in November, ground it some during the winter, and when first cutting April 24 yielded him 1 1/2 tons per acre of pea green alfalfa. A little field meeting was held that was necessary to get additional demonstrations for 1934 in that section. Talking was not necessary—"the alfalfa spoke for itself."

dollars to do double duty.

### Drug Talks

QUININE was given to the  
world by a Jesuit priest who  
brought the knowledge to Spain  
from the Aborigines of Peru in  
1638.

It's a far cry from the dis-  
covery of Cinchona Bark (from  
which Quinine is obtained) to  
the modern methods of admin-  
istering this valuable drug.—  
Our store is keeping pace with  
the time.

NEW FOUNTAIN W. M. S.

The regular meeting of the New  
Fountain Women's Missionary Society  
to place in the home of Mrs. F.  
A. Heyen on the evening of July the  
4th.

The meeting opened by singing  
hymn, "What a friend we have in  
Jesus". Mrs. Theo. J. Wiemers led  
the devotion.

Scripture reading, St. John 14: 1-  
16.  
Hymn.  
Sentence Prayers by members.  
Mrs. Frank Muennink gave a  
reading, "The Way, the Truth and the  
Life".  
Mrs. Emil Heyen reported mission-  
ary news.  
Mrs. Theo. G. Wiemers gave a  
reading, "The Leper Colony in Con-  
go".  
Mrs. F. Stiegler read an open let-  
ter to the Society.  
An interesting business session fol-  
lowed during which plans were dis-  
cussed to hold a Fellowship Luncheon  
in the home of Mrs. F. Stiegler on  
Tuesday, July 25th.

The Missionary Society will also  
have a special program in the  
church on Sunday night, July 30th.  
After the close of the business meet-  
ing a social hour was spent out on the  
lawn during which the hostess served  
delicious watermelon to the members  
and their husbands who were the  
guests for the evening.

"Jesus Christ and We"  
Christ has no hands, but our hands  
To do his work today.  
He has no feet, but our feet.  
To lead men in his ways.  
He has no tongue, but our tongue,  
To tell men how he died.  
He has no help but our help  
To bring them to his side.  
What if our hands are busy with  
other work than this? How can we  
hope to help him unless from him we  
learn.

Paul R. Richter has moved his  
seed and feed store from the brick  
building on Harper Avenue to one of  
the Frerichs' buildings on Front  
Street. We are not informed whether  
the vacated building will be occu-  
pied or not.

IS YOUR INSURANCE MAN,  
ONE WHO LIVES AMONG YOU;  
OR ONE JUST PASSING THRU?  
For Every Form of Insurance  
see O. H. MILLER, Hondo, Texas,  
Since 1907.

Elsewhere will be found the of-  
ficial statement of the Hondo State  
Bank. This statement, while not  
showing the volume of cash on hand  
that is sometimes carried, still shows  
a healthy state of confidence on the  
part of its depositors despite the de-  
pression.

Hondo has a new dry goods and  
notion store, Max Edwin, well known  
as a former merchant in Hondo, hav-  
ing opened up for business in the  
building formerly occupied by the  
Chamber of Commerce. Mr. Edwin  
has a varied assortment of goods use-  
ful in the home. Elsewhere he ex-  
tends you an invitation to give him a  
call and get his prices.

Anthony Jungman, whose disap-  
pearance from home was mentioned  
in last week's paper, communicated  
with his parents from Los Angeles,  
California, Saturday and arrived  
home Wednesday. It seems that he  
and his companion, Floyd Bader, be-  
came separated while enroute and  
never saw each other after leaving  
Texas, but word from young Bader  
received by his parents here in to the  
effect that he is safe in California.

The Luncheon Club enjoyed its  
July luncheon day spread up stairs  
over its former meeting place last  
Wednesday noon. There was a goodly  
attendance, but the absence of our  
usual quota of preachers was noted  
and some are in doubt as to whether  
they absented themselves because  
they think the bunch too good to need  
praying for or too useless to deserve  
it. Their alibi will be heard at the  
August meeting. Those present en-  
joyed a good luncheon of fried chick-  
en; listened to an interesting account  
of his trip to the World's Fair at  
Chicago by our President, P. Jung-  
man; tried to jolly each other out  
of the depression blues; and quit, all  
feeling that it was good to be full of  
fried chicken once more. Don't miss  
it—second Wednesday in August.

positively 1000 banks which were closed by the depression before the bank holiday. Here is a reservoir of purchasing power greater than can be released by the public works program.

Another instance in undertaking a job of careful ability and neglecting an important one at hand.

## "THE PROUD".

"Oh why should the spirit of Mortal be proud?"

For mortal afraid to stand out from the crowd;

But like a poor driven sheep  
(Crawls) into his master's camp  
And there pours forth his bulging  
plans long and brief!

## A JOB SEVERAL MUST WORK AT.

From an editorial in the Progressive Texan, Inc. press sheet, we get the following:

Texas manufacturers today are producing articles that find ready sale throughout the United States, some of them, indeed, throughout the world, on a purely competitive basis. And yet there are Texans, suffering from an industrial inferiority complex, who believe that only from a distance can come the best of things and that the farther they are shipped the better they are."

Progressive Texans further lament:

"The list of first-class Texas-made articles is long. It includes many articles that find ready acceptance in other sections as proof of their quality. Texas manufacturers are furnishing markets for scores of Texas raw materials; they would furnish more if there were a general recognition on the part of Texans of the fact that the future advancement of their State is indissolubly bound up in its development along industrial lines."

Possibly the same bug bit Texas manufacturers that bit the rest of us and caused them to neglect the home market while believing "that only from a distance can come the best" markets.

In the case of Texas markets for Texas manufactured articles, the press can appropriately say to the manufacturers "go beat thyself."

Perhaps when they make proper use of the Texas press to acquaint Texans more thoroughly with the quality of Texas-made goods they will remove the "industrial inferiority complex" of Texans to where they too will "readily accept" their goods on their merits of quality.

When industrialists learn that industrial advancement for themselves is indissolubly bound up with properly planned and financed publicity for their products and "play ball" with the state press in the right spirit and manner, they will find that more people will realize that the "best things"—even markets—are not always the things from furthest off.

Texas industrialists seeking Texas consumer demand for Texas-made products should set an example to all Texans by utilizing Texas planned publicity for their wares.

Then perhaps there will be "a general recognition on the part of Texans of the fact that the future advancement of their State is indissolubly bound up in its development along industrial lines."

## QUIHI NOTES.

Blessed are the pure in heart: for they shall see God. Matt. 5:8.

Any foreign substance in the eye, however small, smart and unpleasant the sight. Who can escape it? Who can prevent impurities from settling on the body in the daily course? In thought, word, or deed, even when we are alone, we are not clean. Who can counteract it? And the average heart is the fertile fountain of ever so many impurities, only too ready to react on short notice from outside contact. Who can be pure in heart? Create in me a clean heart, O God! (Ps. 51:10).

Rev. H. Krause, D. D., and family, vacationing at the Medina River near Castroville, were visitors at the parsonage. Their home is at McGregor, Texas.

Our friends, Mr. John Bohlen, Mr. Jac. Breiten and Mother Neumann are on the sick list. Mrs. Edgar Taiten, Mrs. Herman Gerdes and Mr. Ry. Sathoff are just about over their ordeal. Also Mrs. M. Sathoff enjoys her life again. Our thoughts and prayers are with them. Thanks to the Lord for His help in need.

Last Sunday's program of the Luther League was again enjoyed by a large crowd of friends. In the business meeting following the program a number of important matters were moved for action. Mr. Clarence Sathoff joined the League and was

## 3 GREAT GASOLINES

Gulf Traffic—A dependable, white anti-knock gas	LOW PRICE
That Good Gulf—The famous FRESH gas—now lubricated. No extra cost.	MEDIUM PRICE
No-Nox Ethyl—As fine gasoline as money can buy, plus Ethyl.	PREMIUM PRICE

## 4 GREAT MOTOR OILS

Gulf Traffic... Safe! A dependable low-priced oil.	15¢ a quart (plus tax)
Gulf lub... Gulf's sensational new "high-mileage" motor oil (or Gulf Supreme). The 100-mile-an-hour oil.	25¢ a quart (plus tax)
Gulf Pride... No finer motor oil in the world.	35¢ a quart (plus tax)

# EDITORIALS

The garden surplus now will be an ever present help in the time of our winter of need soon to come if properly preserved now for those lean days.

It is a dangerous thing to get the notion that a show of distrust in the leadership of your opponent is evidence of confidence in your own. The public is a fickle judge of the moulders of public policy.

A radio speaker assures the American people that taking tax money out of one pocket will enable them to put more money in the other one. Wonder out of whose pocket the "more" part is coming?

Millions of tons of corn fodder, the finest forage in the world, will soon be allowed to go to waste all over the corn growing area of this country. This should not be. Like Hans' beer—"too much" feed saved "is just kernough"!

It is a peculiar process of thinking that reckons to cure the ills that follow too much indebtedness by borrowing more money and plunging more deeply into debt. It is on the theory of hunting deeper water because it affords easier swimming even if the swimmer is already drowning!

There is a strange psychology which causes the American people to buy more when prices are advancing. We wonder whether the present appeal to that psychology is evidence that the big buyers of non-taxable bonds are satiated and are turning loose funds to maintain a permanent increase in industry or is it another scheme of theirs to take the lambs to another shearing?

In the muddled condition of our prohibition law, the expensive farce of its enforcement, the growing disrespect for it and the consequent break-down in public morale and respect for constituted authority, we fail to see how any prohibitionist who will give the matter serious thought can help arriving at the conclusion that the best way to promote temperance and protect society is to wipe out the whole miserable failure and try a new "experiment."

This writer had the temerity to tell his prohibition friends that they would be disappointed because expecting too much when they used to tell him prohibition would end crime and empty our jails and asylums. We are equally frank to tell our anti friends now that it is a mistake to stress the revenue-producing feature of prohibition repeal too much. The American people can't drink enough revenue into the treasury to support the government in its present extravagance without ruination to the physical, mental and moral health of the nation, with its attendant evil consequences to business and to society. Common honesty should prevent any of us trying to cover up that fact. Freedom of personal action in the temperate use of a beverage which man has indulged—not always temperately nor freely as the last fifteen years have alas proven—since recorded history should be our plea to every one who loves liberty, respects the rights of his fellow-man and would see temperance and moderation respected and practiced as a personal and self-imposed virtue and not as the grudging concession of a subjugated underling to a superior power. What man or woman can deny such an appeal and be a true American?

## SOMETHING TO HOPE FOR.

As FARMING goes to press the hectic rush to get the farmers to sign up contracts to destroy ten million acres of growing cotton is on.

Whether the movement will succeed in destroying the cotton or become hopelessly smothered in a web of governmental red-tape is not yet apparent.

Whatever the outcome of this unprecedented step, its operation and results will be watched with unusual interest—the cotton planter in the hope of realization of promises made; the Republican party in the hope of party advantage through Democratic failure.

Whatever may be said against the wisdom, the practicability or justice which levies a tax on the consumer of such staple farm crops as cotton and wheat to pay an unearned bonus to the farmer for reducing the output of his fields—and there is plenty to say on all three counts—in principle and practice it is little if any different from the bonus the beneficiaries of a protective tariff have enjoyed at the expense of the American consumer ever since a protective tariff has been "the Great American Policy."

There is no more reason why the consumer of cotton goods should pay a bonus to the manufacturer of cotton goods, as they do when they pay the manufacturer a price higher in proportion to the amount of tariff tax levied than they would have to pay for goods of the same quality imported free of tariff duty, than that they should pay a bonus to the farmer for producing the cotton in the first place.

There is as much reason why the cotton producer should be handed an unearned gift when he sells his cotton as there is justification for the cotton farmer having, because of the tariff, to pay more for the American made implements with which he makes his crop than the same implements are sold for to the foreign competitor of the American cotton grower.

There is this striking difference, however.

The manufacturer has been so coddled by the American consumer for generations to enable him to sell for enough over intrinsic values at home to enable him to produce enough surplus to compete with cheaper foreign products at their price on the foreign market.

The cotton farmer is being bonused for the opposite purpose of so satisfying him with the profits from the home market that he will be content to reduce his output and let the foreign outlet for cotton go hang—or to Egypt!

If the scheme to rent the farmer's land at public expense to keep him from planting it in cotton does not disappoint the farmer, like the ill-starred attempt to put Uncle Sam in the cotton mercantile business with the taxpayers underwriting his venture, it is liable to be its own undoing in that it will stimulate the farmers to plant new land in cotton faster than Uncle Sam can pay the rent to take it out of production.

Furthermore, now that the farmer, should the scheme work, is to become the pet of special privilege, permitted to mulct the consumer of cotton for values not inherent in the commodity, just as the manufacturers have been permitted to do, and ceases to be the chief victim of that mulcting process, there is a chance that there will not be enough goats left to sustain the system and it may fall down of its own weight.

If there is any wisdom, and if there is any virtue and if there is any good to be hoped for out of the whole mess, we think it may come about by knocking the scales from the eyes of the complacent posterity of the men who wrought a nation out of a wilderness rather than submit to a paltry stamp tax and make them see the folly and the enormity of the taxing policies to which the American people tamely submit, and eventuate in opening the markets of the world to freedom of trade among all its people.

We especially hope we wake up before the American cotton farmer's foreign market for cotton is forever and eternally lost to him.

## TWO WAYS OF DOING IT.

Discussing the administration's plan of relief for the wheat grower, Arthur Brisbane writes:

"Wheat growers will get \$150,000,000 from a tax on those that 'process' the wheat, and they, preparing wheat for human consumption, are the wheat grower's customers. The ordinary storekeeper would not thank you for taxing his customer, even if you handed part of the money to him.

"It seems like lifting yourself by your bootstraps. But every one hopes for miracles.

"Now that we are interested in miracles, we should study French methods.

"Paris 'worries about weakness in the French wheat market', distressing to politicians because it angers French farmers. Yet, the French grower, for his soft wheat, gets 'eighty-seven francs a metric quintal', which means better than one dollar a bushel.

"How does France manage that price?

"She does not tax 'wheat processors', but has known how to give her wheat growers and bread consumers real protection, ever since she, long ago passed a law punishing with imprisonment at hard labor, anybody engaged in speculation that might affect the cost of food. The law would put in jail our most respectable wheat gamblers, if they operated in Paris, instead of Chicago."

Next to restoring to the people control over the issuance of money, as contemplated by the constitution, and giving the wheat farmers freedom of the world markets, outlawing the gambling in wheat would do most to restore prosperity to the wheat grower without imposing extortionate prices on the consumers of bread.

But the late rubber stamp Congress did not dare to do either.

Instead, we have an untried experiment in paternalism, while the wheat farmer is left to be robbed with impunity by the tax-free bond clippers, the bonus-fed tariff barons, and the legalized highjackers of the grain pias.

## AND MR. BRISBANE WRITES WITH WONDERFUL CONSTRAINT.

Through the columns of the Hearst newspapers and their affiliates all over the country, Arthur Brisbane tells his twenty million readers:

"Congress has done as it was told, and 'school is out'. The president off for a well deserved vacation, leaves Washington the most powerful ruler in the world, Mussolini, Kemal, Stalin, Hitler, not excepted.

"He has absolute control over all industry.

"He can establish 'government licenses,' to be withheld at his pleasure, no man to do business without such license.

"He controls the spending of three billion, three hundred million dollars for public works, and \$500,000,000 for destitution relief.

"He controls the country's money, can reduce, with a stroke of the pen, salaries of all government employees, reorganize the pension system, repeal taxes, publish income tax returns, inflate the currency, regulate the railroads under one 'co-ordinator', and do many other things.

"All this power, unknown to former presidents, is in President Roosevelt's hands, because he has a strong will, and congress knows the people have confidence in him."

And Mr. Brisbane writes with wonderful constraint!

## SPARKLERS

Who most loves to show himself brave  
Finds his best chance when times are grave!

One can sometimes help most by being still!

Conscience is the safest guide—if it's an honest conscience!

That is a great intelligence that knows its own proper bounds!

Patience is sometimes a mighty shield against the onslaughts of error!

The border-land between right and wrong is too often a no-man's land where none know the way!

Would you build for permanent duration  
Look well then to your building's foundation!

There are few disappointments more poignant than to have expected too much!

One of the worst weaknesses of humanity is our proneness to measure all the values of life in dollars and cents!

There's a gink here in Texas named Amon

Who, 'cause of an itch to get his name on

The front pages of the papers,  
Cuts many asinine capers  
And more the fame the more shame on Amon!

## IT IS WISEST—

Never to worry about the irrevocable.

To forget to remember your grudges.

To profit by the other fellow's experience if you can.

Never to pretend to wisdom you do not possess.

To know the weakness as well as the strength of your cause.

To first count the cost before accepting something offered free.

To so live you can look every man in the eye without wincing.

To stick to the faith that sticks to you when all else fails.

## THE HOUSE OF MORG.

Oh, great is the house of one J. P. Morg-

An; built on his greed and his gold—

But, alas, it is but a gruesome morgue  
Where Liberty is laid out cold!

## POETIC SUBJECTS ARE NO MORE

By Margaret Crowder.

There were poetic subjects when the world was young,  
 When the Earth from her flame-cleansed parent was flung;  
 But now all subjects on wires of gold are strung  
 And by their pull tears, sweat and blood from true souls wrung.

When men claimed right of descent into matter  
 Great Jove hurled his bolts, the faulty vase to shatter,  
 But man had chosen along his path to scatter  
 Untruth, deceit and theft; while stooping to flatter.

And Great Jove's bolts could only the surface abraid.  
 While man traps in subteranean caverns laid  
 So man, in his blindness, stumbles ages untold  
 As he grapples with the beast and licks yellow mold.

He MAY someday vision down the vistas of time  
 Creative beauties, and union of love sublime.  
 Pain (his own depravity) may cause him to climb  
 Above the plain of self-injuring willful crime.

At present his willful ignorance is discord.  
 Each by his fellow, with suspicion, abhorred.  
 So how can poetic subjects be accorded  
 To such man-made truths; so pitifully sordid?

## WATCH THE EAGLE IN HIS FLIGHT.

Michael D'Andrea.

At times the sky is bright and blue,  
 At times it's dark and gray;  
 At times it's favorable for you  
 To trim your sails and fly away.

We take a chance in spite of all,  
 And trust somehow to win.  
 Should we at times receive a fall  
 Just meet the upset with a grin.

Now, from the eagle man can learn,  
 That early leaves his nest.  
 So study well each dart and turn,  
 And how he safely glides to rest.

## COURAGE.

By R. L. Campbell.

I am told that fate is against me,  
 That it is useless for me to try,  
 But that shall never discourage me,  
 For I'm determined to win or die.

Although fate may oppose me with might  
 And I become embattled and scarred  
 I will dare to stand up for the right  
 With a courage that cannot be barred.

I may be held in check for an hour;  
 I may be scorned, belittled and kicked;  
 But never has fate had the power  
 To convince me that I have been licked.

## WEAR IT WITH A SMILE.

By A. S. Draper.

The soul within the temple dwells;  
 It is the inner me,  
 And it a living story tells  
 Of Christ who set me free.

How much, each day, we learn of Him,  
 Is shown upon the face;  
 The less we think of self and sin,  
 More room we have for grace.

It does not pay to wear a frown;  
 Dear friend, it's not worth while,  
 So if you claim a victor's crown,  
 Receive it with a smile!

INVOCATION.  
(Pantoum)

By Anton Romatka.

Your spirit rules the cosmic sphere,  
 Your music thrills eternal space;  
 I know your wisdom placed me here;  
 I read your soul from Nature's face.

Your music thrills eternal space;  
 I see your wonders in the skies;  
 I read your soul from Nature's face,  
 And praise your cosmic enterprise.

I see your wonders in the skies,  
 And forget men's narrow creed,  
 And praise your cosmic enterprise;  
 Your warning voice alone I heed.

And I forget men's narrow creed;  
 Bow not to barren doctrine's law;  
 Your warning voice alone I heed;  
 I worship you with faith and awe.

Bow not to barren doctrine's law;  
 Kneel not to idols men design;  
 I worship you with faith and awe.  
 Pray, make my soul your home and shrine.

Kneel not to idols men design,  
 Though I am poor and weak and small;  
 Pray, make my soul your home and shrine—  
 I ever heed your spirit call.

Though I am poor and weak and small,  
 Dear God, I think you understand  
 I ever heed your spirit call,  
 And trust in your almighty hand.

Dear God, I think you understand  
 I know your wisdom placed me here;  
 And trust in your almighty hand—  
 Your spirit rules the cosmic sphere.

## ON A STILL NIGHT.

Mary Octavia Davis.

Cotton-wood,  
 So still tonight—  
 Where is your song?

Has the wind  
 Passed you by  
 For other dancing leaves?  
 So mute you are  
 In the moon's wan light,  
 Each silver leaf  
 A silenced song.

O tree!  
 Tree of the singing leaves!  
 My swift silencing despair  
 And finely wrought pain  
 With yours commingles!

Cotton-wood,  
 So still,  
 I need your song tonight!

## LITTLE HURTS.

By Elizabeth Giler Winn.

A bird sat on an orchard tree  
 And sang to keep it company;  
 But when I stopped to listen too  
 He flew away and left me blue.  
 Folks often act that very way,  
 They are so happy, bright and gay,  
 But break a heart as if in play,  
 And make us feel the hurt all day.

## THE BUILDER.

July,  
 Alchemist in  
 Nature's busy workshop,  
 Vast treasures you build Plenty's horn  
 To fill!

—Fletcher Davis.

## HIS ANNUAL COURTSHIP.

Mary Taylor Ramsel.

I saw today, a bird come back,  
 To build anew his home.  
 He sat in the still leafless tree nearby,  
 And sang a beautiful song.

How careless of me not to notice,  
 Only a few feet away  
 The cause of this explosion of song,  
 A wee little miss in grey.

He sang and warbled and capered about,  
 Until to me, he should have died,  
 But the wee miss seemed indifferent,  
 So again and again he tried.

He seemed to be trying to sing a note,  
 I'm sure no musician could sound,  
 At last he trilled it, a beautiful note.  
 Strong, Melodious, Round.

With a quick little flirt, the wee miss was off,  
 And the chase was on again,  
 I haven't a doubt, from the fervour he showed,  
 He'd chase her from here to Spain.

## POET SPIRIT.

By Harriet Zukav.

Who loves to live on poetry,  
 Its far depths to explore?  
 My inner being's soul  
 Wakes and dreams on its shore;

And who would turn his eyes away  
 From artificial need  
 And sacrifice his human heart  
 For poetry's life seed,—

A world apart, a gifted world,  
 Harmony transplanted  
 Must surely be the gift for he  
 Whose spirit God granted.

I'd love to live on poetry,  
 And climb the steps destined;  
 I'd love to live on poetry  
 With heav'n and earth combined!

## SONGS OF GLADNESS.

Amie L. De Berger

In sunshine and in shady nook  
 Our feathered warblers sing;  
 Thro rain and misty weather, drear,  
 Their notes, enchanting, ring.

May we not find a lesson, there,  
 In such an attitude,  
 And thank our God, thus day by day,  
 For gifts and daily food?

The sunshine and the shadowed days  
 Is God's own plan, we know,  
 And like the merry songster's note  
 Let's sing as on we go.

The golden sunshine brings us cheer—  
 When clouds break all is fair,  
 But if we sing, in glad acclaim,  
 Our life will be more fair.

## MORNING.

By Louise Nagle Morrow.

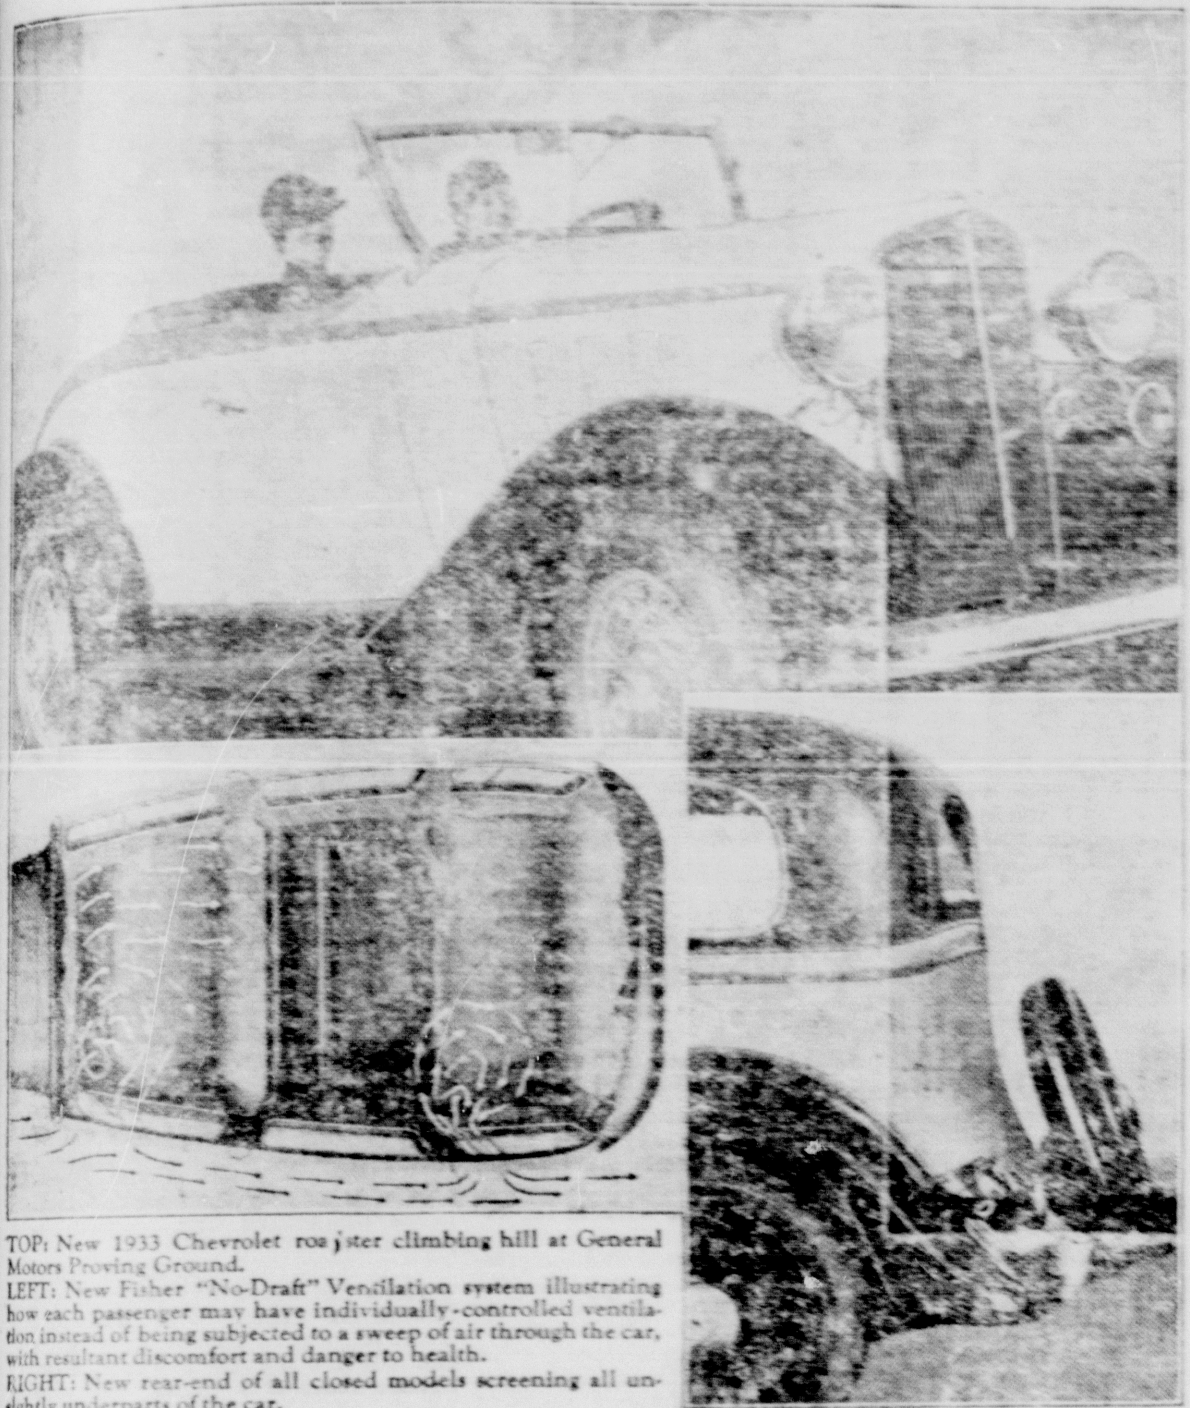

God made the mornings beautiful that they  
 Who labor with their hands and minds each  
 day  
 May find, within its beauty, strength  
 To face the burden of the day's great length.

God made the mornings beautiful for those  
 Who welcome dawn break at the long night's  
 close,  
 Who feel through suffering and pain  
 Sunlight brings courage to go on again.

God made the mornings beautiful for He  
 Had so much beauty for the world to see  
 He wove it into every part of His design  
 And gave the dawn a loveliness divine.

# New Chevrolets Add Over 85,000 People to Payrolls of Nation

TOP: New 1933 Chevrolet roster climbing hill at General Motors Proving Ground.  
LEFT: New Fisher "No-Draft" Ventilation system illustrating how each passenger may have individually-controlled ventilation instead of being subjected to a sweep of air through the car, with resultant discomfort and danger to health.  
RIGHT: New rear-end of all closed models screening all unslightly underparts of the car.

Chevrolet's public-showing of its new 1933 line means a material part to national employment and materials consumption, since this company is the largest manufacturer in the largest industry in the world. More than 85,000 people are back at work, 30,000 in the company's twenty domestic factories, 21,000 more in Fisher body plants working exclusively on Chevrolet-Fisher bodies, and more than 36,000 in dealerships throughout the nation. As many more are indirectly benefited by the announcement, through making their livelihood by building parts for the car which Chevrolet buys from independent suppliers.

Chevrolet's 1932 volume totals nearly 400,000 cars and trucks with a retail value in excess of \$200,000,000. This is said to be one of the greatest contributions made by any company this year to the economic welfare of America.

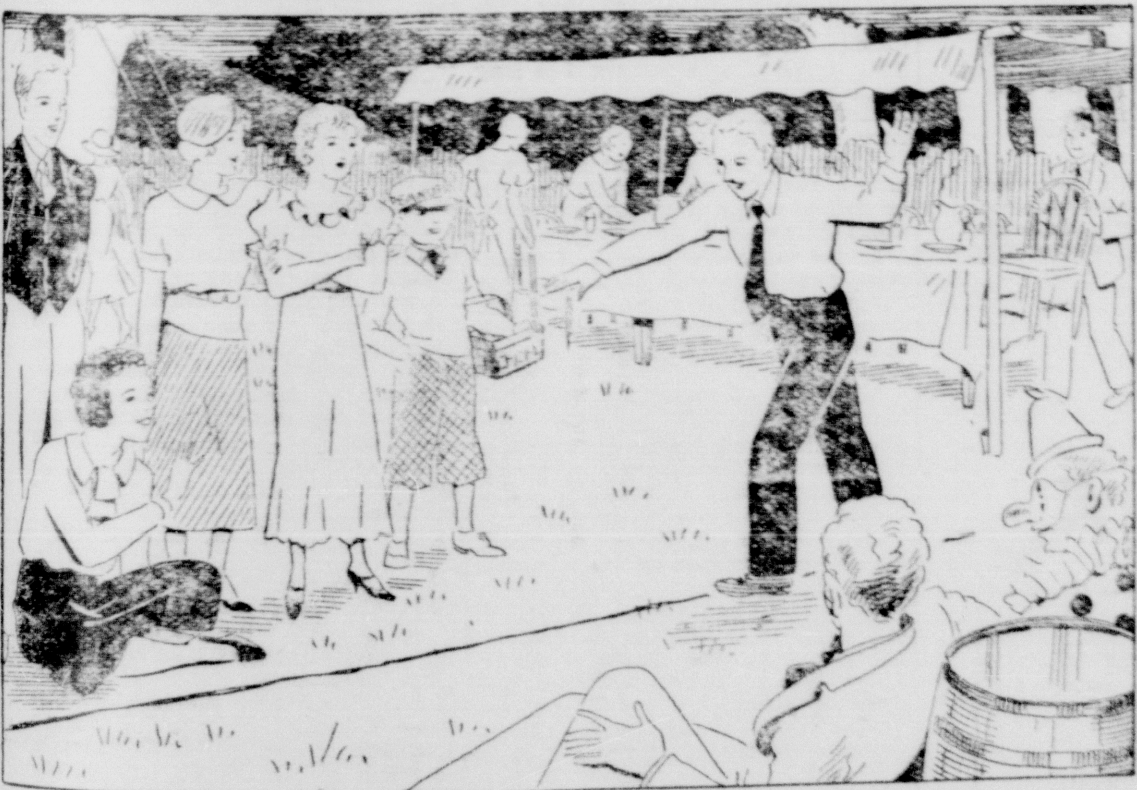

In the new line, now on display at all dealers, is a variety of models

featuring longer wheelbase, new Fisher "No-Draft" Ventilation and many other features which the company has designed to retain for it the leadership in the industry it has enjoyed for four years out of the past six.

Other features included in the new line are more power and speed in the engine, which is newly cushion-mounted; improved free wheeling, plus Synchro-Mesh transmission with Silent Second gear; a new "Starter-ator" that greatly simplifies starting; such safety elements as shatter-proof glass in the windshield; larger and lower bodies by Fisher, in the new "Aer-Stream" model; three fewer controls, with really automatic features in some of those retained; an Octane Selector that insures the highest possible operating efficiency from all grades of gasoline, besides a uniform gasoline cost per mile; dash instruments of airplane type, for instant, easy reading; positive brakes; and still easier steering.

With all these, and many more, the price range continues to be mindful of the buyer's pocketbook. It has been found possible to equip the new Chevrolets with many features that used to be confined to cars selling at several times Chevrolet's base price.

Since October first, trained former employees have been going back to work in Chevrolet's widely distributed manufacturing and assembly plants, with welcome additions to the general purchasing power, made possible by more wage money in circulation. Throughout November, the increase in employment continued to a seasonal peak to the middle of December, when concentrated operations incident to prompt dealer stocking were in full swing. More than twenty million dollars worth of the new cars were in dealers' hands when the national introduction was made.

## A CIRCUS PICNIC

THEY used to say, when a good-time-was-had-by-all, that the affair was "a perfect circus" or "a perfect picnic" which, in those days, meant that the party was something of a wow. Expressions come and go, lemonade-on-the-lawn becomes cocktails-on-the-roof, but the circus and picnics are perennial.

So what could be nicer than a circus picnic—and by that we mean a picnic out in the open with a canvas big top—even if it's just canvas stretched on four poles—to keep off the sun, and a bag of sawdust sprinkled underfoot, red and white checked tablecloths spread on long picnic tables that fairly grin, rather than groan, with good foods of the out-of-doors sort?

Anybody's Picnic

Maybe it's a picnic for children, to celebrate the close of school; maybe it's a picnic for dignified adolescents; or maybe it's a picnic for vivacious adults—it's the same picnic anyway, for the circus knows no age distinctions.

There should by all means be a ring-master to crack the whip and announce the various attractions—the guests all being part of the cast. If the guests are many, the affair can take on the splendor of a three-ring circus, but otherwise one ring will be

sufficient. Serve pop-corn and lemonade on the side lines.

Walking the Tight Rope might be the opening stunt. Place a small rope along the ground, tightly stretched by two poles, and the person who can run the entire length of the rope singing or whistling, Yankee Doodle, without once stepping off the rope, is awarded a pair of pink tights which he must wear over his clothes.

The Flying Trapeze prize goes to the dapper young man or woman who swings the highest in a rope swing. The Star Clown is the one who succeeds in putting on the best make-up from a suitcase filled with false faces, make-up paints and odd bits of costume brought along for the occasion.

By a slight stretch of the imagination you can adapt any of the circus stunts to this sort of amusing contest and award appropriate prizes. And here are some suggestions for circus foods for the crew including hot-dog sandwiches, clown ice cream and merry-go-round cake:

### Circus Chow

Vienna "Hot-Dog" Sandwiches: Cut sausages from one can of Vienna sausages in thin rings and put a layer of them on long rolls that have been spread with

butter and mustard. Sprinkle a little relish or chopped sweet pickle, and cover with the top of the roll.

Clown Ice Cream: Place a slice of pineapple on each serving plate and top with a round scoop of vanilla ice cream. Sprinkle the ice cream with chocolate sprinkle to represent hair, and top with an empty cone for the clown's hat.

Merry-Go-Round Cake: Bake the following sunshine cake in a shallow tube pan: beat yolks of four eggs until thick, add one cup fine granulated sugar, and continue beating. Add one-half cup of canned grapefruit juice, then fold in the stiffly-beaten whites of four eggs. Sift one cup cake flour with one teaspoon baking powder and a few grains of salt. Fold the egg whites into the flour mixture carefully. Bake in an ungreased tube pan in a slow oven—325 degrees for fifty to sixty minutes. Turn upside down and let cool completely. Put a large candy cane in the center hole for the pole, breaking off the hook-end of the cane. Use small sticks for the outside poles. With picture wire, make a frame for the top and cover with red and white striped paper. At regular spaces around the cake stand animal crackers in pairs in a boiled chocolate or white icing.

## America Leads Nations In Use Of Ice Cream

If any one food may be considered as America's national dish, it is ice cream.

Ice cream is a food particularly adapted to the needs of individuals of all ages, giving as it does the best type of nutrients for the repair of bone, teeth, blood and muscles and for energy.

Today thousands of housewives make their own ice cream. As a consequence, the making of this highly nutritious food at a reduced cost, yet without in any way impairing the product, is of importance.

Home economists have found a means to this end in the use of evaporated milk. There are three important reasons why evaporated milk

makes the best ice cream, they point out. Because 90 per cent of the natural water in evaporated milk has been removed by evaporation, there is over twice the percentage of solids present in this type of milk than there is in ordinary market milk—and, since it is the solids that give ice cream its pleasing flavor, this fact is of moment.

Then, the composition of evaporated milk is constant, for the reason that it has been put through an homogenizing process, which breaks up the fat globules into tiny particles and distributes them evenly throughout the milk. This attribute makes for an ice-cream mixture of uniform quality and fine texture.

Finally, experts agree that the use of evaporated milk in ice cream contributes to its hygienic qualities, for the reason that evaporated milk is entirely sterile. Health authorities declare that milk and cream should be treated to a heat of 150 degrees F. for half an hour in order that a product may be produced free from infective organisms. Evaporated milk is processed at 240 degrees for 30 minutes, and, therefore, its introduction into an ice-cream mixture increases its purity in proportion to the amount of evaporated milk used.

## Effective But Simple Dishes Now In Vogue

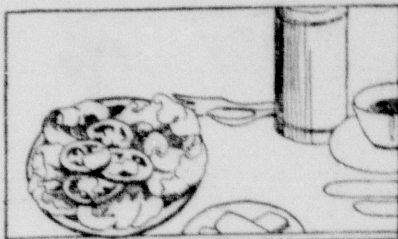

Something simple yet effective is the housewife's ideal for week-end dishes.

During the warm summer weather, women should not be compelled to spend hours in the preparation of meals, when minutes would accomplish the same purpose. Planning week-end menus should be a congenial task, not a bore. At this time of the year there are a variety of nutritious vegetables and fruits to choose from in preparing meals and the modern home manager takes advantage of them. The housewife plans her summer menus so that they will suggest coolness, while at the same time taking into consideration their dietary value. A delicious cream soup made from fresh vegetables, or an omelet, a fresh fruit dessert, or a custard, a dish of ice cream, or a pudding, are nourishing items that should find high favor in the week-end menu.

The home manager enjoys her week-ends 100 per cent more when she has a few moments of leisure. And in this connection the following recipes may prove an aid.

### Creamy Salad Dressing.

1 cup boiled or milk  
mayonnaise 1/2 cup cream  
dressing 1 tsp. sugar  
1/2 cup evaporated 1 tsp. fruit juice  
Combine evaporated milk and cream, chill and whip. Add sugar and juice, then fold into salad dressing. Especially nice for fruit salads.

### Chocolate Velvet Cream.

1 1/2 tbsp. gelatin 1 tsp. butter  
1/2 cup cold water 1/2 tsp. salt  
2 eggs, beaten 1 tsp. flavoring  
separate 1/2 cup evaporated  
1/2 cup sugar milk combined  
2 squares (oz.) with  
chocolate 1/2 cup whipping  
1/2 cup evaporated cream, chilled  
milk diluted with and whipped  
1/2 cup water  
Soak gelatin in water five minutes. Mix beaten egg yolks and sugar, pour heated, diluted milk over slowly, put in double boiler with gelatin, butter and salt. Cook until the mixture thickens. This takes about 15 minutes. Strain, beat 2 minutes, let cool. Melt the chocolate over hot water, let cool a little, then add the chocolate and vanilla to the mixture after it has cooled. Fold in the stiff egg whites, then the whipped cream. Turn into a mold and chill at least 3 hours. It may be chilled in individual dessert glasses.

## New Slants on Peas

LET'S do different things with peas. They are too good to be served the same old way day after day—and they have too many interesting possibilities. Here are some suggestions, suitable for the peas that will soon be growing in your garden, or suitable for the peas in cans with that fresh garden flavor because they are picked fresh and quickly packed.

### Clap for Future Reference

To extend a can of peas intended for the family into a week-end dinner capacity, new potatoes may be creamed with them and will give added flavor as well.

Cook a sprig of mint with peas, and you will like the delicate and unusual flavor.

An appetizing pea salad is made by molding peas in unseasoned lemon jelly and serving cold with mayonnaise.

Left-over peas creamed with young green onions are a healthful and different dish.

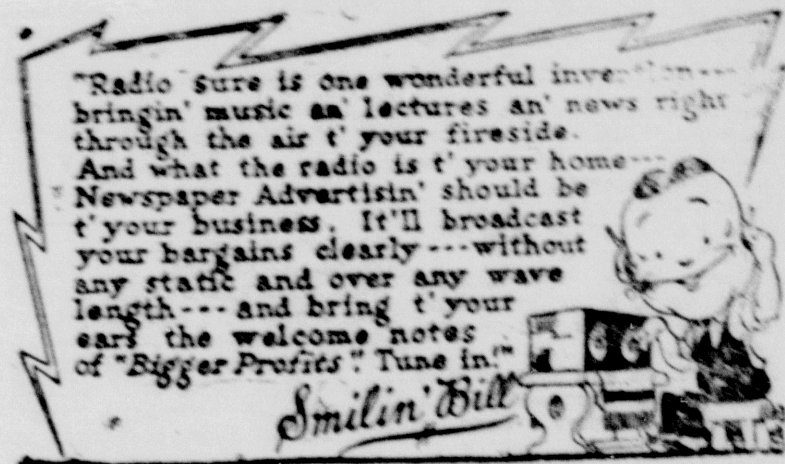

Creamed peas are excellent arranged in alternate layers with buttered crumbs and browned in the oven.

An unusual delicacy is omelet stuffed with mashed peas and rice, covered with crumbs and baked in the oven.

A thrifty suggestion is to chop a slice of bacon fine and add to the peas when reheating. It gives a delicious flavor and saves butter.

A splendid salad may be made by mixing peas with sardines and hard-boiled eggs. Serve on crisp lettuce hearts with mayonnaise dressing.

Peas simmered with young onions for a few moments, then put into a baking dish and baked with a covering of grated cheese, are very good.\*

## A Wise Man Says of Real Estate:

"There is nothing that can do more toward the development of the highest attributes of good citizenship than home ownership."—Warren G. Harding.

There will never be a better time than right now to acquire a home. Our business is helping the people find homes—Farm, Ranch or Town Homes. Let us help you NOW.

A round-up of Local, Personal and Business Items gathered weekly by our regular Correspondent

### Miss Josie Rothe

to whom all items intended for this column should be handed not later than Wednesday noon of each week. Miss Rothe is authorized to collect and receipt for money due this paper.

D'HANIS, TEXAS, WEDNESDAY, JULY 12, 1933

Mrs. Martin Knippa and children of Knippa spent Friday with Mr. and Mrs. Louis Carle.

Very Rev. F. Maas, Mrs. Leonard Maas, Miss Bertha Sauter, Mr. W. E. Albrecht, and Mr. F. J. Carle are attending the convention of the Staatsverband at Rowena, Texas, this week.

Mr. and Mrs. R. R. Carle and children, Mr. and Mrs. John Zinsmeyer and children and Miss Irene Poerner spent last week at ConCan.

Mr. and Mrs. M. A. Zinsmeyer and children visited in San Antonio Tuesday.

Misses Martina and Ida Carle of San Antonio spent Wednesday with relatives here.

Misses Leona Poerner and Lillian Pohn are spending several days with Miss Mary Emma Finger in Hondo.

Mr. and Mrs. Felix Batot of Hondo have as their guests this week Misses Verene and Stella Finger.

Harold Rahm of San Antonio is visiting at the home of Mr. and Mrs. Albert Nester this week.

Mrs. A. J. Finger, Eric Rothe, M. J. Finger, and Ed. Finger spent Friday in ConCan.

Mr. and Mrs. Ed. S. Koch had as their guests Sunday Mr. and Mrs. Raymond Batot, Mr. and Mrs. Bert Lowther and Mr. Emil Kush of San Antonio and Mr. and Mrs. Paul Bendele of Dunlay.

Miss Thelka Voigt of New Braunfels is visiting Miss Lena Reinhardt this week.

Mr. and Mrs. Ed. Jones and Mr. and Mrs. Griffin Adair and children of San Antonio spent Sunday with Mr. and Mrs. John Batot.

Mrs. Adolph Fingenot and son of San Antonio are visiting Mrs. John Wolff for several weeks.

Mrs. Emma Rothe, Mrs. Herman Ney and children, Miss Tina Rothe, and Lawrence Rothe spent Monday in San Antonio.

Mrs. Emil Brod and Mrs. August Nester and little daughter, Sarah, visited relatives in Perry, Rosebud, Burlington and Wesphalia last week.

Mr. and Mrs. Hubert Franger of Runge, Mr. and Mrs. Martin Franger

and Mrs. Christina Ehlinger of San Antonio spent Sunday with Mr. and Mrs. Henry Franger.

Mr. and Mrs. John Nester visited relatives in San Antonio Monday.

Miss Ethel Rothe acted as sponsor at the christening of Barbara Anne Zerr, the infant daughter of Mr. and Mrs. Robert Zerr, in Hondo Sunday.

### GINGHAM GIRLS.

Misses Ethel Rothe and Lorene Zinsmeyer were joint hostesses to the Gingham Girls and a number of additional guests at the home of the latter on Tuesday night. Vari-colored zinnias and fern were artistically placed throughout the rooms. The tallies were miniature hand-made Gingham Girls. This idea was further carried out in the prizes which were stuffed animals, a gingham cat being awarded to Miss Irene Carle for high score, and a gingham dog to Miss Armine Pohn for consolation. Refreshing pea salad and iced tea were served to the following members and guests: Misses Margaret Hubbard, Ursula Lee Rock, Laurinda Reiche, Armine Pohn, Irene Carle, Alice Rohrbach, Bernice Carle, Sarah Koch, Irene Poerner, Grace Zinsmeyer, and the hostesses.

### PIRATES LOSE THIRD GAME.

The Pirates lost a close game to the LaCoste Boosters here Sunday by a score of 1 to 0. This was the third loss of the season against fourteen victories. Reitzer, LaCoste pitcher, was touched up for eight hits but managed to bear down when runners were in scoring position, thus preventing any Pirates from crossing the plate. Langfeld held LaCoste to seven hits, but was the victim of a long double by Jungman and a single by Reitzer which scored Jungman. The Pirate infield made five double plays. Tom Koch relieved Langfeld in the ninth and retired the side by striking out three batters in succession.

Next Sunday the Pirates will meet the Hondo Bronchos at Hondo.

### NOTICE.

The State of Texas, County of Medina.

To those indebted to or holding claims against the Estate of Adolph Eckhardt, deceased.

The undersigned is the duly appointed and qualified Administrator of the above estate, letters of administration having been issued to him on the 7th day of July A. D. 1933 by the County Court of Medina County, Texas.

All persons indebted to said estate shall come forward and make settlement of same, and those having claims against said estate shall present them within the time and in the manner prescribed by law.

My residence is Hondo, Texas, which is also my Postoffice address.

JOE NEY, Administrator of the Estate of Adolph Eckhardt, deceased.

### NOTICE.

The State of Texas, County of Medina.

To those indebted to or holding claims against the Estate of John Perry, deceased.

The undersigned was duly appointed and qualified as the Administrator of said estate on the 7th day of February A. D. 1933 in the County Court of Medina County, Texas; and notice is hereby given to all persons holding claims against said estate to present the same to me within the time and in the manner prescribed by law, and those indebted to said estate to come forward and make settlement.

My residence and postoffice address is Hondo, Texas.

J. M. FINGER, Administrator of the Estate of John Perry, deceased.

C. E. Hall of Bellville shipped out the last load of calves he had on feed April 22. They sold for \$5.35 per 100 pounds on the Fort Worth market. The cost of feeding 74 head of calves was \$1011.49. The income from the 74 head was \$2365.37 leaving \$1353.88 to be charged for the calves. This is a selling price for the calves at the time they went in the feed lot of \$18.30 per calf. The average weight was 506.5 pounds. This would be an average of \$3.61 per 100 pounds. The calves weighed out of the feed lot with an average of 881.6 pounds. The shrink on this load was 4.06 per cent.

## After Tonight --- No More Burning Feet

End your foot troubles and your wife's worries by soaking your feet for 20 minutes in a Radox bath—the new treatment that draws from the millions of foot pores the poisons and acids—the cause of distress and agony.

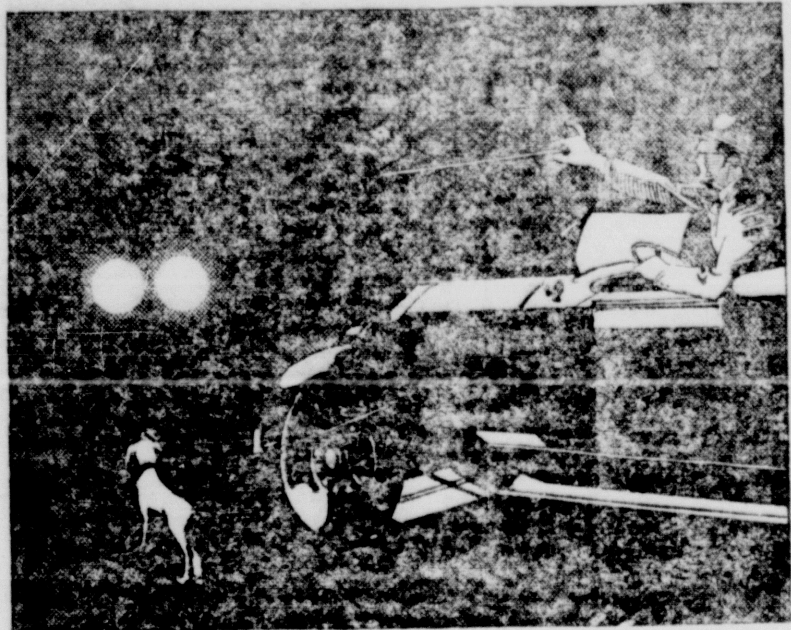

Drop 3 tablespoonfuls of Radox in a gallon of hot water for this joyous bath and in the morning if you don't walk to work with feet like new—with a song of joy in your heart—get your money back.

Big package of Radox for 45 cents at W. H. WINDROW'S and druggists everywhere.

## Pupils of Eyes Shut, Open When Autos Pass at Night

As Many Minutes Required for Them to Open to Maximum Diameter as Seconds to Close — Driving Beyond Lights Dangerous

Automobile accidents during darkness and in that twilight period just after sunset are more likely to result in serious injury and death than accidents during daylight. Why? First, because during dusk and darkness the field of vision of operators is reduced by inadequate illumination and secondly because headlight glare from approaching cars momentarily "blinds" driver.

During the four-hour period of 5 to 9 P. M. last year 29.37 per cent of all the automobile accidents occurred, but these mishaps resulted in 9,070 deaths, or 31.26 per cent of all fatalities, figures compiled by The Travelers Insurance Company show. During the four-hour period of 1 to 5 P. M., however, 23.85 per cent of the accidents occurred. The deaths from these accidents numbered 5,080 or 20.64 per cent of all fatalities. In the hours from 6 A. M. to 6 P. M. there were 409,100 accidents in which 13,500 persons were killed, or 32 killed for every 1,000 accidents. The night hours from 6 P. M. to 6 A. M. produced 336,200 accidents and 15,500 deaths or 46 deaths per 1,000 accidents. Thus the death rate per accident was 43.7 per cent worse during the hours of darkness than during the hours of daylight.

Night driving, even when glare is absent, is exceedingly dangerous because too many operators drive beyond their lights. Many are the night accidents briefly described "Failed to see pedestrian until too late."

Because of inadequate lighting at night, the pupils of the eyes are enlarged considerably in order to admit more light to the retina (the sensitive membrane of the eye which receives

the image and is connected with the brain by the optic nerve) with illumination inadequate, however, not enough light is admitted to the eyes to make a clear image upon the retina. Consequently, drivers at night see only those objects that are within relatively short distances—and those imperfectly.

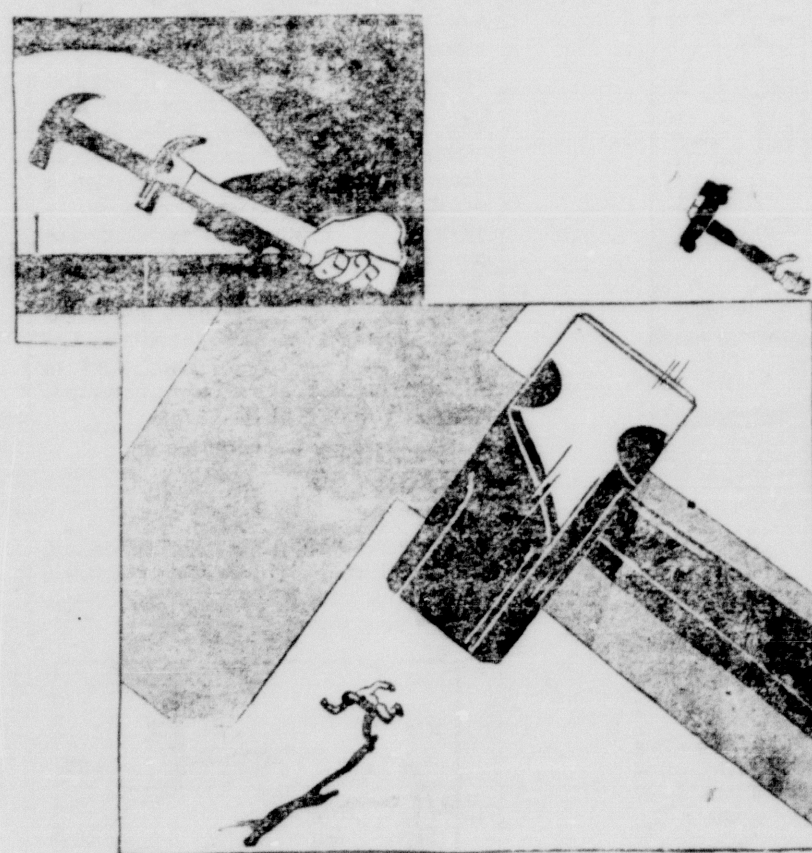

The pupils of the eyes require about as many minutes to open to a maximum diameter as seconds to close to a minimum diameter. If a second is required for the pupils to contract for adjustment to the brightness of on-coming headlights a minute is required for the pupils to open to a maximum diameter—generally necessary for night driving. Thus there is a time period during which operators can barely see.

If this condition should last only three or four seconds a car at 40 miles an hour would cover from 177 to 236 feet of roadway and at the moderate speed of 25 miles from 111 to 148 feet. Any object or person within these distances in the path of the car very likely would be struck and further any object or person within the additional ordinary stopping distances of say, 125 feet at 40 miles and 56 feet at 25 miles very likely would be struck.

## STOPPING CAR LIKE DRIVING NAIL, AS DAMAGE DEPENDS UPON BLOW

Let Hammer Accidentally Hit One's Thumb, Lightly; Then With Resounding Whack, and Full Import of Speed Danger Will Be Appreciated

It is not the force equivalent to the weight of the hammer, but the force which comes into existence when the hammer is stopped that drives the nail into wood. A simple thing, easily understood. It is not the force equivalent to the weight of an automobile, but the force which comes into existence when the automobile is stopped that causes personal injury and damage to property.

The harder the hammer strikes a nail the quicker it penetrates wood. The faster a moving automobile strikes an object or person the greater the damage and more serious the injury. Let a hammer accidentally hit one's thumb lightly; then with a resounding whack, and the full import of the danger of increasing rate of speed will be appreciated.

### Accidents More Serious

Statistics on the causes of automobile accidents throughout the United States in 1932 and their consequences compiled by The Travelers Insurance Company show that although cars last year were not in collision with other cars and pedestrians as frequently as 1931, the consequences of the collisions which did occur were relatively more serious.

The decrease in deaths from automobile accidents last year was not as great as the percentage drop in accidents. This fact is brought out by the detailed records of important states having more than a third of the country's total population. The combined experience shows for 1932 an increase of 1.3 per cent in deaths per accident, an increase of 2.2 per cent in

injuries per accident, and an increase of 2.4 per cent in deaths and non-fatal injuries per accident.

### Speed A Vital Factor

Other figures show how increased speed causes more severe accidents. Of the non-fatal injuries, fractures, contusions and internal injuries suffered by automobile accident victims in 1932 accounted for a larger percentage of all non-fatal injuries than in 1931. Of all the accidents due to improper acts of drivers a fourth resulted from excessive speed. The deaths from such accidents were more than a third of all the fatalities for which acts of drivers were either wholly or in part responsible.

It is speed, still more speed, and then greater speed which under many traffic circumstances is the all-important factor which too many drivers fail to keep under control. Speed may be dangerous at 20, 25 or 30 miles an hour just as it is potentially dangerous at 50, 60 and 70 miles an hour. High rates of speed are hazardous under most conditions of travel. Relatively low rates of speed prove to be hazardous also when they are maintained under improper conditions.

## :-: Castroville Cullings :-:

LOCAL, PERSONAL AND BUSINESS ITEMS FROM THIS BUSY BURG

W. F. NAEGELIN, LOCAL REPRESENTATIVE

News and advertising copy for this column for the week's issue should be submitted to Mr. Naegelin or mailed direct to us at Hondo not later than Tuesday night of each week. Mr. Naegelin is authorized to collect and receipt for any business for this paper.

CASTROVILLE, TEXAS, TUESDAY, JULY 11, 1933

Jordan T. Lawler was a San Antonio visitor Sunday.

Allen Huegele of Yellow Banks was a Castroville visitor Tuesday.

Louis Inken, Sr., was on the sick list last week.

Robt. Halty and daughter of the Sauz were business visitors here Monday.

R. J. Noonan of Hondo was a Castroville visitor Tuesday.

Rev. J. Lenzen, John Biry, Louis Tendre, Robert Rihn, Albert Biediger, Ralph Tschirhart, Joe Steinle, and Mesdames Chas. Suehs, Clara Tendre and Louis Schott are attending the Catholic Staatsverband at Rowena this week.

Mr. and Mrs. Wm. Schmidt of San Antonio are spending their vacation at the Jagge Ranch.

Mrs. Aug. Mangold and Mrs. Leo Mangold were San Antonio visitors Saturday.

Albert Haby of Kerrville, who left here three years ago, was a Castroville visitor here this week. Albert now resides in Kerrville.

Mr. and Mrs. Chas. Naegelin of

San Antonio visited Mrs. Josephine Naegelin and Chas. Suehs and family Tuesday.

Frank Meny and family of San Antonio spent the week-end here.

Jack FitzSimon and family of San Antonio are spending a few days here this week.

Mrs. Bernard FitzSimon and children were Divine visitors Sunday.

John Mechler, Mrs. Henry Tschirhart and Will R. Naegelin were San Antonio visitors Sunday.

### ZION'S LUTHERAN CHURCH.

Announcements:

Sunday, July 16, Sunday School at 9:00 A. M. Divine services in the German tongue at 10:00 A. M.

Monthly Luther League meeting at 8:30 P. M.

On Sunday night, July 30, Educational meeting with the Rev. Theo. R. Streng of San Antonio as the speaker. His topic will be: "A Century of Progress Exposition".

K. KONZACK, Pastor.

### WHAT'S THIS WE HEAR?

In Congress a thing has just happened which is too good to be true. For a long time we have been accustomed to ask, can any good thing come out of Congress? As reported it is so good that I fear something must have been held back in the report.

I have never believed that the present Congress would enact the bill which it is said was passed in the lower house yesterday. Is it possible they did it? I wonder if there is some "joker" somewhere in the bill to destroy its good effect. I suspect there is, because it is said from other sources that Congressman McFadden of Pennsylvania opposed the bill. This I cannot understand, (because in the past he has seemed to be a veritable reformer), unless some vitiation clause is found there which is not reported.

But let us hope the reports show the true colors of the bill. It is said to be sure that the senate and the President will indorse the measure.

What is the great feature of the bill? It is this: It nullifies the gold payment clause in all bonds, mortgages and contracts, thus allowing the Government to issue without interest, its Legal Tender Currency (paper money) with which to pay off these bonds and mortgages instead of borrowing and paying them in gold.

This is the first step necessary to stop the interest graft, and to put out money for raising prices of labor and products. If enacted into law, this will be the first real step towards emancipating the world from the ungodly reign of gold owners. Too long already has this clique of international robbers smitten the world with its fury.

If enacted into law, the world will have common cause rejoicing as never before in the past 600 years. A shout of hallelujah should go up all over our land. Our armies, if necessary, and our courts should be put behind the enforcement of the bill. The Nation is saved, and a Republic of Justice is now possible in our future course.

We wonder whence came the force that has so suddenly impelled Congress to this benign move. I have seen no Congressman advocate it in the past. I have seen only one book advocate such a move to be taken by Congress. That book is "Righteous Economics" put out by this writer five years ago.

In several newspapers in the U. S. my article calling for the just repudiation of this "gold contract cause" was published in 1928. It was then included in my booklet put out in that year. At least fifteen or twenty thousand copies of the article in books and papers, went out to lawmakers and the people over the United States.

At that time (five years ago) the author was branded by many interest-takers with vile epithets like "repudiator", "nullificationist", etc., etc., now we find that Congress is indorsing it almost in toto.

The article as it then appeared, read as follows:—

"Gold Contracts and Paper Money".

"The question is often raised as to how we could begin using Government Legal Tender (paper money) when so many of our past contracts are made payable in gold.

"The answer to this question is, the people of the United States, money lenders and all, are repudiating those gold contracts every day. They are being settled every day with other forms of money, because both parties know that it would be impossible for them to be settled in gold, and for this reason the gold contracts have already been repudiated. They are null and void for two reasons—

"First, they are impossible contracts, that is; they are impossible of settlement, because debtors cannot procure the gold necessary to meet them. Law enforces no impossible contracts.

"Second, They are null and void because custom has already repudiated them, and the precedent of their settlement in other forms of money is already established.

"Customs and interest on public bonds are now specifically made payable in gold, and yet they are habitually paid in other forms of money, and if these forms of money are acceptable in payment of interest on bonds, they could not legally be refused in payment for the bonds themselves.

"Gold contracts in the United States are already null and void as to the kind of money to be tendered. Lawful money will legally settle them in court just as it does now out of court.

"Various Supreme Court decisions have already been handed down which has settled that question beyond cavil."

P. A. SPAIN.

Since the above was received, the Senate has passed and President Roosevelt signed the bill in question and it is now the law. Let us hope Dr. Spain's fears of a "joker" will soon be allayed by a discontinuance of bond-issuing and the issuance of government currency instead, and not be manifested in a free gift to the holders of gold bullion of the equivalent of its present value by reducing the present weight to half of its former volume and thereby doubling the value of all the gold of this world. Lookout!

—The Editor.

### A DOLLAR-AND-CENT QUESTION.

In recent issue of Farming, Dr. Spain, (I think we used to call this old "hand-painted" Democrat "Doctor") most forcibly and explicitly makes plain the fact that, regardless of the character of any tax levy the agricultural and industrial producer ultimately pays it. I hope no reader of FARMING overlooked it because it took up most of the front page.

Reminds me to say that some good Democrat, with the idea doubtless, that the farmer might get back some of the sales-tax embodied in the sales tax bill up in the last legislature, tacked on an amendment providing that the sales-tax should relieve the farmer of his ad valorem tax; after which there was no show for the bill in that shape.

And the producer has no means to dodge his ad valorem. But Pierpont Morgan testified the other day that he, and the gang of robber-banksters "in cahoots" with him, had not paid their income tax in two years; and he was on the witness stand under oath. Suppose, my farmer friend, you knew how your member of the legislature voted on the aforementioned clause in the sales-tax bill, how might it affect your vote when he is up for reelection?

R. R. CLARIDGE, Salmon, Texas.

### STRAWBERRY VARIETIES ON TRIAL AT WINTER GARDEN EXPERIMENT STATION.

Of 22 varieties set in November, 1932, Missionary, Klondike, Blakemore, Gibson, Banner and Thompson were the heaviest yielders this spring in trials at the Winter Garden Experiment Station. Carolina (Missionary) was particularly outstanding, yielding over 50 per cent more than any other strain of Missionary or the best Klondike strains. Bauer's Klondike, Early Bird and Thompson were the earliest varieties. Of the newer introductions, Redheart was promising because of its excellent color, flavor and firmness. Further tests on plant production and heat resistance are being made this summer.

It pays to keep your eyes on The Anvil Herald's advertisements; they offer you money-saving opportunities.

## RUPTURE

H. L. Hoffmann, Expert, former associate of C. F. Redlich, Minneapolis, Minn., will demonstrate without charge his "Perfect Retention Shields" in

SAN ANTONIO, TEXAS JEFFERSON HOTEL TUESDAY, JULY 25.

From 10 A. M. to 4 P. M. Please come early.

Any rupture allowed to protrude is dangerous, weakening the whole system. It often causes stomach trouble, gas and backpains.

My "Perfect Retention Shields" will hold rupture under any condition of work and contract the protruding in a short time.

Do not submit to avoidable operations and wear trusses that will enlarge the opening. Many satisfied clients in this community. No mail order.

HOME OFFICE: 305 Lincoln Bldg., Minneapolis, Minn.
